# Welcome to the 6<sup>th</sup> International AMR Slide Seminar Symposium!

The 6th Arkadi M. Rywlin International Pathology Slide Seminar in Anatomic Pathology will be held in the city of **Tel-Aviv, Israel**, under the sponsorship of the Israeli Society of Pathologists in **June-July 2013**.

The Arkadi M. Rywlin (AMR) International Pathology Slide Seminar Club is a non-profit organization created in 1991 to promote and advance the exchange of ideas among academic pathologists throughout the world in a spirit of cooperation and collegiality. The format of the symposium will be that of an extended slide seminar. A total of 76 selected cases will be presented and discussed by the faculty. A set of glass slides from the cases will be distributed (to the first 150 registered participants), and a syllabus will be distributed to all participants with a discussion of the cases. The symposium will focus mainly on diagnostic problems and controversies in surgical pathology utilizing a case study format and will be of interest to general surgical pathologists and trainees in pathology.

*Please join us for this exiting venue in Israel!*

## ARKADI M. RYWLIN, M.D.

The Arkadi M. Rywlin Pathology Slide Seminar was founded by Dr. Saul Suster in 1991 to honor the memory of his mentor and teacher, the late Professor Arkadi M. Rywlin (1923–1987). Professor Rywlin was born in the free city of Danzig and completed his medical training at the University of Geneva, Switzerland. He immigrated to the United States in 1953 and served as the Director of Pathology & Laboratory Medicine at the Mount Sinai Medical Center of Greater Miami and as Professor of Pathology at the University of Miami School of Medicine until his untimely death in 1987.

Professor Rywlin attained international recognition for his expertise and numerous publications in the pathology of the bone marrow. He was the author of more than 100 original articles spanning a variety of subjects in pathology and achieved international recognition with the publication of his textbook on Histopathology of the Bone Marrow (Little, Brown & Co., Philadelphia, 1974). Professor Rywlin was an outstanding educator and trained hundreds of residents and fellows. He combined a classical education in pathology with a strictly logical and critical approach to solving problems in pathology. The club was founded to honor the memory of this master of Pathology and to celebrate and promote the spirit of critical thinking that was the legacy of Professor Rywlin to his students.

### Half day tour to Old Jaffa

Old Jaffa is a historical site of great importance. Jaffa is one of the oldest towns in the world and is mentioned both in the Old and New Testament. The control over Jaffa has been coveted by rulers for ages, each conqueror leaving his own unique mark on the city.

Beyond the old city to the north lie the residential areas of Jaffa. Here time has lessened its pace and you get the feeling of how life was 200 years ago.

This is a good area to walk around if you want to experience not only the tourist Jaffa but the true character and inhabitants of this town. Jaffa is a mixed city with Jewish, Christian and Muslims living together in harmony.
