

Arkadi M. Rywlin, M. D.

The AMR International Pathology Slide Seminar was founded by Prof. Suster in 1991 to honor the memory of his teacher and mentor, the late Profesor Arkadi M. Rywlin (1923-1987). Profesor Rywlin was born in the free city of Danzig, and completed his medical degree at the University of Geneva, Switzerland. He immigrated to the United States in 1953 and after additional training with Otto Saphir in Chicago, eventually transferred to the Mount Sinai Medical Center of Greater Miami in Miami Beach, Florida. There he served as the Director of the Department of Pathology & Laboratory Medicine and Professor of Pathology at the University of Miami School of Medicine until his death in 1987.

Profesor Rywlin attained international recognition for his expertise and numerous publications in the pathology of the bone marrow. He was the author of more than 100 articles spanning a variety of subjects in pathology and achieved international recognition with the publication of his textbook on Histopathology of the Bone Marrow (Little, Brown & Co, Philadelphia, 1974). Profesor Rywlin was an outstanding educator and trained hundreds of the residents and fellows. He combined classical education in pathology with his strictly logical, straightforward approach for solving problems in pathology. The Club was founded by Dr. Suster to honor the memory of this Master of Pathology and to celebrate and promote the spirit of critical thinking that was the legacy of Profesor Rywlin to his students.

The 3rd AMR International Symposium in Anatomic Pathology

The 3rd AMR International Symposium in anatomic Pathology will be held this year in Mexico city, Mexico. The symposium will take place at the Auditorium of the Instituto Nacional de Cancerologia. The format of the symposium will be an extended slide seminar presented by members of the AMR International Pathology Slide Club. More than 40 selected cases will be presented with an opportunity for questions and answers from the the audience. Sets of glass slides and a printed syllabus will be distributed to the first 180 registered participants . The symposium will focus mainly on diagnostic problems and controversies in surgical pathology and should be of the interest to general surgical pathologists and trainees in the specialty (residents/registrars). Because of the limited capacity of the auditorium registration will be limited to 300 attendees. Electronic version of the couse will be available at the web sites of the AMR club and of the Instituto Nacional de Cancerologia.

National Cancer Institute, Mexico.

Wednesday 18
17:00 - 19:00 Registration

Thursday 19
08:00 Inauguration and welcome
Dr. Alejandro Mohar, Director of the National Cancer Institute, Mexico.
