Welcome to the 5th International AMR Slide Seminar!

The 5th Arkadi M. Rywlin (AMR) slide seminar in anatomic pathology will be held at the Swedish Society of Medicine in Stockholm Sweden.

The AMR is a non-profit organization created in 1991 to promote and advance exchange of ideas among academic and clinical pathologists throughout the world in a spirit of cooperation and collegiality. The format of the symposium will be an extended slide seminar.

A total of 76 selected cases will be presented and discussed by the faculty. A set of glass slides from the cases will be distributed to the first 150 registered participants, and a syllabus will be given to all participants with a discussion of the cases. The symposium will focus mainly on diagnostic problems and controversies in surgical pathology utilizing a case study format and will be of interest to general surgical pathologists and trainees in pathology.

Welcome to Stockholm in June 2012!

ARKADI M. RYWLIN, M.D.

The Arkadi M. Rywlin Pathology Slide Seminar was founded by Dr. Saul Suster in 1991 to honor the memory of his mentor and teacher, the late Professor Arkadi M. Rywlin (1923–1987). Professor Rywlin

was born in the free city of Danzig and completed his medical training at the University of Geneva, Switzerland.

He immigrated to the United States in 1953 and served as the Director of Pathology & Laboratory Medicine at the Mount Sinai Medical Center of Greater Miami and as Professor of Pathology at the University of Miami School of Medicine until his untimely death in 1987.

Professor Rywlin attained international recognition for his expertise and numerous publications in the pathology of the bone marrow. He was the author of more than 100 original articles spanning a variety of subjects in pathology and achieved international recognition

with the publication of his textbook on Histopathology of the Bone Marrow (Little, Brown & Co., Philadelphia, 1974). Professor Rywlin was an outstanding educator and trained hundreds of residents and fellows. He combined a classical education in pathology with a strictly logical and critical approach to solving problems in pathology. The club was founded to honor the memory of this master of Pathology and to celebrate and promote the spirit of critical thinking that was the legacy of Professor Rywlin to his students.
