

**AMR SEMINARS: LIST OF CASES  
(GROUPING OF CASES PER ORGAN/SYSTEM)**

**INDEX**

**ADRENAL & PARAGANGLIA**  
**BRAIN & MENINGES (PLUS MYOPATHIES)**  
**HEAD & NECK (OTHER THAN BONES, MAJOR SALIVARY GLANDS AND THYROID)**  
**MAJOR SALIVARY GLANDS**  
**THYROID**  
**THORAX, LUNG & PLEURA**  
**UPPER RESPIRATORY TRACT**  
**THYMUS & MEDIASTINUM**  
**HEART & LARGE VESSELS**  
**BREAST**  
**DIGESTIVE TRACT**  
**LIVER**  
**PANCREAS**  
**GYNECOLOGY (UTERUS, CERVIX, VAGINA & VULVA) & PREGNANCY**  
**OVARY & UTERINE SALPYNX**  
**KIDNEY**  
**URINARY TRACT**  
**MALE GENITAL SYSTEM**  
**LYMPH NODES, BONE MARROW, PERIPHERAL BLOOD**  
**SPLEEN**  
**PERITONEUM & ABDOMEN-NOS**  
**SKIN & SUBCUTIS**  
**SOFT TISSUE (INCLUDING RETROPERITONEUM)**  
**PERIPHERAL NERVE**  
**BONE & ARTICULAR SYSTEM**

*\*Legend: the 2 numbers on the right of each diagnosis (e.g. 13/13) indicate the Seminar # as well as the Case # in that Seminar.*

## **ADRENAL & PARAGANGLIA**

- Epithelioid angiosarcoma of the adrenal gland (BM Wenig). 13/13
- Mixed adrenocortical adenoma-pheochromocytoma (JA Ferreiro). 16/3
- Adrenal oncocytoma vs oncocytic carcinoma (JA Ferreiro). 18/4
- Primary pigmented nodular adrenocortical disease (CDM Fletcher). 26/6
- Malignant paraganglioma with both conventional and sarcomatoid patterns (T Krausz). 27/10
- Adrenal oncocytoma (D Ben-Dor). 32/1
- Aldosteronoma (CA Moran). 33/14
- Metastatic adrenal cortical carcinoma (AM Gown). 34/12
- Sclerosing paraganglioma of the parapharyngeal space (CDM Fletcher). 35/10
- Lymphangioma-like adenomatoid tumor of the adrenal gland (M Bisceglia). 36/4
- Adrenal oncocytoma, malignant (as a Follow-up case to AMR Seminar #32, case 1 by D Ben-Dor) (D Ben-Dor). 37
- Interdigitating dendritic cell tumor vs? sustentaculoma of the adrenal (LM Weiss). 43/18
- Inflammatory pseudotumor of the adrenal (LM Weiss). 45/15
- Angiomatoid fibrous histiocytoma (AKA angiomatoid "MFH") of the adrenal (K Cooper). 47/3
- Sarcomatoid carcinoma of the adrenal gland (J Forteza-Vila). 49/10
- Ganglioneuroma, with focal neurofibroma and atypical areas (LM Weiss). 49/21
- Corticomedullary tumor of the adrenal glands. (M Michal). 55/16
- ? Sarcomatoid adrenal cortical carcinoma with metastatic rhabdomyosarcoma in lymph nodes (and lung) (C Fisher). 57/8
- Mixed cortical adenoma and composite pheochromocytoma-ganglioneuroma (LM Weiss). 57/20
- Retroperitoneal atypical sporadic Kaposi's sarcoma involving the adrenal, with sarcomatous transformation on local recurrence (M Bisceglia). 59/4
- Poorly-differentiated malignant neoplasm with evidence of epithelial differentiation, NOS, likely metastatic from thymus (S Suster) (59/21).
- Epithelioid angiosarcoma of the adrenal gland (F Fedeli). 60/12
- Epithelioid angiosarcoma involving the adrenal (M Miettinen). 60/18
- Metastatic breast cancer to adrenal myelolipoma ("tumor in tumor" phenomenon) (O Dietze). 63/7
- Metastatic prostatic adenocarcinoma to the adrenal gland (BM Wenig). (66/20)

## **BRAIN & MENINGES (PLUS MYOPATHIES)**

- Angioblastic meningioma (hemangioblastoma variant) of the cerebellopontine angle (A Sara). 3/13
- Progressive multifocal leukoencephalopathy of the brain (LA Moral). 3/10
- Gliosarcoma with lipomatous differentiation cerebello-pontine angle (S Ramon y Cajal). 3/12
- Mucinous meningioma of the brain (S Suster). 3/15
- Plasma cell granuloma with massive lymphadenopathy of the meninges of the brain (LA Moral). 4/10
- Microcystic meningioma (LA Moral). 5/11
- Neurocytoma of the brain (A Sara). 5/13
- Sarcomatous transformation of a choroid plexus carcinoma of the right lateral ventricle (N Cartagena). 6/3
- Malignant rhabdoid of the temporo-parietal (V Eusebi). 6/5
- Tanyctic ependymoma of the spinal cord (LA Moral). 6/12
- Astroblastoma of the brain (SJ Melnick). 7/10
- Epithelioid hemangioendothelioma of the brain (JKC Chan). 8/4
- Medulloblastoma (SJ Melnick). 8/10
- Intraventricular malignant meningotheliomatous and secretory meningioma (LA Moral). 8/12
- Pleomorphic xanthoastrocytoma (LA Moral). 9/11
- Leigh's disease or subacute necrotizing encephalomyopathy (JKC Chan). 10/4
- Meningeal sarcoma (LA Moral). 10/13
- Irradiated low-grade glioma vs radiation changes (A Sara). 10/16
- Central neurocytoma (V Eusebi). 11/5
- Metachromatic leukodystrophy (JKC Chan). 12/6
- Giant cell granulomatous hypophysitis (LA Moral). 12/14
- Sparganosis of the brain (JKC Chan). 13/2
- Neoplastic angioendotheliomatosis plus progressive multifocal leukoencephalopathy (J Forteza-Vila). 13/5
- Florid polymyositis in a case of upper motor neuron disease (GJ Berry). 14/1
- Meningeal hemangiopericytoma (J Lamovec). 15/9
- Dysembrioplastic neuroepithelial tumor (JKC Chan). 17/6
- Glioblastoma, epithelioid-sarcomatoid type (LA Moral). 18/11
- Meningioma with myxomatous and chordoma-like features (CJ Manivel). 19/12
- Solitary fibrous tumor of meninges (A Nascimento). 19/13
- Central core disease with structured cores (M Bisceglia). 24/2
- Ependymoma, clear cell type plus papillary type (JKC Chan). 24/4
- Inflammatory pseudotumor of brain (J Forteza-Vila). 24/7
- Desmoplastic ganglioglioma, non-DIG type, in an adult (DV Spagnolo). 24/14
- Atypical teratoid/Rhabdoid Tumor (AP Dei Tos). 25/5
- Meningioangiomatosis: a form of mixed glio-neuronal tumors (S Ramon y Cajal). 27/13
- Chester-Erdheim disease of the brain (M Bisceglia). 28/3
- Glioneuronal tumor with rosette (S Ramon y Cajal). 32/12
- Xanthomatous/angiomatous meningioma (with microcystic and secretory features) (H Dominguez-Malagon). 33/7
- McArdle disease or myophosphorylase deficiency (M Bisceglia). 36/5
- EWS/PNET of the meninges (AP Dei Tos). 39/7
- Desmin cardiomyopathy (GJ Berry). 44/2

- Rhabdoid meningioma (O Dietze). 44/6
- Anaplastic embryonal rhabdomyosarcoma, apparently primary in CNS (E Montgomery). 44/14
- Chordoid meningioma? (H Dominguez-Malangon). 45/6
- Brain venous infarction vs a postinfectious hemorrhagic leukoencephalopathy (J Forteza- Vila). 47/9
- Intracranial Rosai- Dorfman disease (V Eusebi) 49/7.
- “Adenoid” glioblastoma (malignant astrocytoma, WHO grade 4, with divergent epithelial-mesenchymal differentiation) (JA Strauchen). 49/17
- Gliomatosis cerebri (J Forteza-Vila). 51/10
- Metastasis of sarcoma to brain (see comments). (S Ramon y Cajal). 52/14
- Idiopathic hypertrophic cranial pachymeningitis (V Eusebi). 57/7
- Pseudotumoral intracranial Erdheim-Chester disease (polyostotic sclerosing histiocytosis) mimicking a primary brain-meningeal tumor as manifestation of previously undiagnosed systemic disease (G Elmberger) 58/9
- Meningeal metastatic GIST (K Cooper). 59/7
- Meningioma, psammomatous variant (PE Wakely, Jr). 59/22
- Mitochondrial myopathy presenting with progressive external ophthalmoplegia (PEO). (61/5)
- Pleomorphic xanthoastrocytoma of the brain, Grade II, WHO 2011. (S. Ramon y Cajal) (66/12)

## **HEAD & NECK (OTHER THAN BONES, MAJOR SALIVARY GLANDS AND THYROID)**

- Kimura's disease involving soft tissue of the neck (JKC Chan). 1/6
- Retromastoid melanotic progonoma of infancy (SJ Melnick). 2/11
- Cervical cryptococcal lymphadenitis (JKC Chan). 3/3
- Follicular lymphoma of the parotid secondary to Dilantin (N Cartagena, Jr). 4/3
- Sinus histiocytosis with massive neck lymphadenopathy (G Herrera). 4/6
- Malignant tumor of probable neuroectodermal origin of the orbit (S Ramon y Cajal). 4/12
- Infantile myofibromatosis of the mandible (S Melnick). 6/10
- Solitary plasmacytoma of nasal cavity (S Ramon y Cajal). 6/14
- Epimyoepithelial carcinoma of the parotid (S Suster). 6/15
- Cutaneous Ki-1 (+) large cell lymphoma of T-cell lineage of the neck and vulva (JZ Sickel). 7/16
- Malignant meningioma of the parapharyngeal space (H Dominguez-Malagon). 13/3  
Heffner tumor (BM Wenig). 19/17
- Glomus-like neuroendocrine carcinoma of the nasal cavity (H Dominguez-Malagon). 21/6
- Poorly differentiated retinoblastoma (LM Weiss). 22/21
- Sino-nasal HPC-like tumor (W Tsang). 23/15
- Epithelial neoplasm? Paraganglioma? Glomoid indeterminate tumor? CASTLE? (BM Wenig). 23/16
- Pleomorphic large T/NK lymphoma of the face (H Molina-Hirsch). 25/12
- Tophaceous pseudogout of calcium pyrophosphate dehydrate deposition disease or CPP crystal deposition disease of the temporo-mandibular articulation (BM Wenig). 29/16
- Sclerosing extramedullary hematopoietic tumor of the orbit in CML (JKC Chan). 33/3
- Hemangiopericytoma-like tumor of the nose (N Weidner). 34/Quiz case-2
- Additional case to Seminar #19 -Case 17 (BM Wenig). Heffner tumor (M Bisceglia). 34
- Rhinoscleroma (K Cooper). 35/3
- Necrotizing sialometaplasia associated (secondary) to midline angiogenic (T-NK) lymphoma (H Dominguez-Malagon). 35/6
- Meningioma of the middle ear (G Falconieri). 38/10
- Clear cell sarcoma (of tendon sheath) arising in the palate (C Fisher). 39/10
- Primary intraosseous meningioma (V Eusebi). 41/9
- Olfactory neuroblastoma with glandular differentiation –nasal cavità (JKC Chan). 43/2
- Adenocarcinoma of the pigmented retinal epithelium (H Dominguez-Malagon). 43/6
- Sinonasal tubulopapillary low-grade adenocarcinoma (M Michal). 43/12
- Rhinocerebral mucormycosis (JA Strauchen). 43/14
- ? Alveolar soft part sarcoma of the H&N area (AM Gown). 44/10
- Kimura's disease (S Ramon y Cajal). 44/15
- Neuroendocrine carcinoma –for lack of an alternative diagnosis (BM Wenig). 44/18
- Cocaine-induced nasal osteocartilaginous necrosis and mucosal ulceration (JKC Chan). 46/5
- Undifferentiated malignant tumor in parotid with extensive angioinvasion (AFIP's suggested opinions: A) Intermediate to high-grade sarcoma consistent with MFH; B) Unusual intermediate to high-grade pleomorphic sarcomatous neoplasm of uncertain origin vs sarcomatoid carcinoma with sebaceous cell differentiation) (BM Wenig). 46/17
- Nasal chondromesenchymal hamartoma (???) (CDM Fletcher). 47/8
- Nasopharyngeal papillary adenocarcinoma (G Elmberger). 48/7
- Reactive microglandular/microtubular proliferation in a benign nasal polyp (aka microglandular adenosis) versus low-grade tubular carcinoma (DV Spagnolo). 48/16

- Sino-nasal glomangiomyopericytoma/HPC-like tumor versus atypical intranasal meningioma (BM Wenig). 48/17
- Ameloblastic carcinoma (O Dietze). 49/6
- Mycobacterial spindle cell pseudotumor (PE Wakely, Jr). 49/20
- Cribriform adenocarcinoma of the tongue (M Michal). 51/12
- Primitive small cell tumor with epithelial, gangliocytic, neuroendocrine and mesenchymal differentiation (M Michal). 53/17
- Acute mononucleosis, tonsil (G. Berry). 52/4
- Giant cell angiofibroma (Giant cell rich solitary fibrous tumor) (E Montgomery). 52/12
- Microcystic adnexal carcinoma of the tongue (MAC) - A tumor derived from Ebner's glands (G Elmberger). 54/7
- Sinonasal Schwannoma (G Falconieri). 54/8
- Langerhans cell sarcoma of the oral cavity (tongue). (V Eusebi). 55/9
- Oncocytoma likely arising from intranodal salivary gland parenchyma (B Wenig). 54/18
- Infectious mononucleosis tonsillitis with geographic necrosis. (H Dominguez-Malagon). 55/8
- Salivary gland-type adenoma of the hypophysis. (M Michal). 55/17
- Entamoeba gingivalis admixed with Actinomyces in a maxillary abscess (JZ Sickel). 55/Quiz case-3
- Kimura's disease associated with chronic clinical manifestations (bulky cervical adenopathy), soft tissue edema and fibrosis, and cutaneous lesions. (TV Colby). 56/6
- Nasal seromucinous hamartoma with focal REAH-like features. (G Elmberger). 56/7
- Sinonasal ameloblastoma. (G Falconieri). 56/8
- Congenital granular cell tumor (O Dietze). 57/6
- Alveolar rhabdomyosarcoma, maxilla, in an adult (PE Wakely, Jr). 57/19
- Invasive paraganglioma incompletely excised; nine regional lymph nodes negative for metastatic tumor (BM Wenig). 57/21
- Medullary carcinoma of the thyroid with glandular/cribriform pattern (G Berry) 58/4
- Anaplastic embryonal rhabdomyosarcoma of the orbit (CE Bacchi). 59/2
- Calcifying cystic odontogenic tumor (Gorlin cyst) (H Dominguez-Malagon). 59/10
- Intraoral, sublingual STUMP (BM Wenig). 59/Quiz-case
- Poorly differentiated synovial sarcoma with anomalous expression of desmin (and I guess ER) (TV Colby). 60/8
- Sclerosing fibroinflammatory lesion (? type) of the neck (CDM Fletcher). 61/13
- Canalicular adenoma of minor salivary glands (M Fukunaga). 62/11
- Midline NK/T cell extranodal lymphoma, nasal type involving the lungs, heart, pancreas, stomach. (I Damjanov) 65/7
- Extra Axial Nasal meningioma (H. Dominguez-Malagon). 65/8
- Metastasis of teratocarcinosarcoma of the nasal cavity (M Michal) 17/65
- Kimura disease (in both soft tissue and regional lymph nodes) (K. Perry) 65/19

## **MAJOR SALIVARY GLANDS**

- Chronic sclerosing sialadenitis of the submandibular gland (Kuttner's tumor) (61/7)
- Carcinoma arising in mixed tumor (carcinoma ex-pleomorphic adenoma) of the parotid (LA Moral). 3/9
- Polymorphous adenok of minor salivary gland (BM Wenig). 11/20
- Mikulicz disease plus Hodgkin's disease in parotid lymph node (T Krausz). 13/8
- ? Malignant mixed tumor of the salivary gland (S Suster). 13/12
- Hyalinizing clear cell carcinoma of parotid vs epithelial-myoepithelial carcinoma (JKC Chan). 15/4
- Acinic cell carcinoma of parotid with thyroid-like pattern (V Eusebi). 17/10
- Non-Hodgkin's lymphoma in a Warthin tumor (JA Ferreiro). 21/8
- Salivary gland anlage tumor (M Michal). 22/11
- "Eskimoma" (PW Allen). 23/1
- Well-differentiated acinic cell carcinoma associated with lymphoid stroma (M Michal). 26/9
- Sarcomatoid carcinoma of the parotid (BM Wenig). 27/18
- Sialoblastoma (BM Wenig). 31/16
- Dedifferentiated adenoid cystic carcinoma of submandibular gland (JKC Chan). 34/5
- Carcinoma ex pleomorphic adenoma (encapsulated, non-invasive, carcinoma in situ), parotid gland (D Ben Dor). 36/2
- Lymphadenoma of the parotid gland without sebaceous metaplasia (M Bisceglia). 38/4
- Salivary duct carcinoma (J Goldstein). 41/14
- Spindle cell carcinoma of the parotid gland consistent with a SETTLE-type tumor (spindle cell carcinoma of possible branchial cleft origin) (T Mentzel). 44/12
- Massive lymph node metastasis of aneurysmal fibrous histiocytoma (primary in the skin).
- So-called (benign) metastasizing cutaneous fibrous histiocytoma. (M Bisceglia). 46/3
- Parotid gland – Metastatic Merkel cell carcinoma, with rhabdomyosarcoma differentiation (metastatic "Merkel cell carcinosarcoma"). (JKC Chan). 53/4
- Non-sebaceous lymphadenoma (vs lymphoepithelial carcinoma). (D Ben-Dor). 56/2
- Mammary analogue secretory carcinoma of salivary glands, containing the ETV6-NTRK3 fusion gene (M Michal). 59/18
- Sclerosing polycystic adenosis (SPA) of parotid gland (G Elmberger). 60/9
- Oncocytic carcinoma of the parotid (BM Wenig). 61/22
- Basal cell adenocarcinoma of parotid, possibly developing over time in a pre-existing basal cell adenoma (D Ben-Dor). 66/4

## **THYROID**

- Dyshormonogenic goiter (A Sara). 1/8
- Hürthle cell tumor with necrosis of the thyroid secondary to FNA (S Suster). 3/14
- Black thyroid due to minocycline (IJ Bleiweiss). 4/1
- Medullary thyroid carcinoma, pseudopapillary variant (JKC Chan). 5/4
- Medullary carcinoma of the thyroid with oxyphilic and "squamoid" features (J Lamovec). 7/9
- Papillary carcinoma of the thyroid, macrofollicular variant (V Eusebi). 9/6
- Epithelioid hemangiosarcoma of the thyroid (J Lamovec). 9/8
- C-cell hyperplasia of the thyroid (IJ Bleiweiss). 10/2
- Spindle cell sarcoma of the thyroid (fibrosarcoma?) (H Dominguez-Malagon). 15/5
- Papillary carcinoma of the thyroid, columnar cell variant (BM Wenig). 15/14
- "Black thyroid" in a case of cystic fibrosis (CJ Manivel). 17/14
- Amphicrine medullary carcinoma of thyroid with luminal differentiation (H Dominguez-Malagon). 19/6
- Thyroid lymphoma (CJ Goldenberg). 19/9
- Lymphoepithelioma-like anaplastic carcinoma of the thyroid (H Dominguez-Malagon). 25/6
- Mesothelioma invading thyroid (V Eusebi). 25/7
- Papillary carcinoma of the thyroid within follicular tumor (O Dietze). 28/7
- Paraganglioma of the thyroid (J Lamovec). 29/12
- Metastatic medullary carcinoma of the thyroid simulating melanoma (IJ Bleiweiss). 35/2
- Follicular adenoma with papillary architecture (D Ben Dor). 38/2
- Warthin-like papillary carcinoma of the thyroid (G Falconieri). 40/7
- Sarcomatoid variant of anaplastic carcinoma of the thyroid (G Berry). 50/3
- Sclerosing mucoepidermoid carcinoma with eosinophilia of thyroid, plus Hashimoto thyroiditis, plus oncocytic adenoma/adenomatoid oncocytic nodule (G Elmberger). 52/7
- Follicular neoplasm of the thyroid of undetermined malignant potential (S Suster). 55/20
- Post-radiation angiosarcoma arising in the chest wall and secondarily invading the thyroid (S Suster). 55/Quiz case-4.
- ..... thyroid (M Sobrinho Simoes). 60/20 (as a Quiz case)
- Encapsulated Hurthle cell carcinoma of the thyroid with extensive cytoplasmic clear cell changes (D Ben-Dor). (62/2)
- Thyroid gland with encapsulated (noninvasive) undifferentiated (anaplastic) thyroid carcinoma arising in association with a differentiated follicular epithelial cell lesion (B Wenig). (63/21)
- Papillary carcinoma of thyroid with follicular architecture, and a malignant spindle cell proliferation (dedifferentiation vs solitary fibrous tumor [associated with PTC]). (G. Falconieri) (64/7).

## **UPPER RESPIRATORY TRACT**

- Malignant mixed tumor of the bronchial glands (G Schibi-Brilliant). 9/15
- Benign granular cell tumor of the bronchus (GJ Berry). 30/1
- Giant cell tumor versus aneurysmal bone cyst of the larynx (G Falconieri). 30/5
- Large cell neuroendocrine carcinoma of the larynx (K Cooper). 39/5
- Tracheal paraganglioma (GJ Berry). 42/3
- Salivary gland type tumor of the bronchus, most consistent with low-grade epithelial-myoepithelial carcinoma (low grade adenomyoepithelioma) (T Krausz). 60/14

## **THORAX, LUNG & PLEURA**

- Extraskeletal Ewing's sarcoma, primary in the lung (peripheral neuroectodermal tumor) (CA Moran). 1/3
- Pulmonary blastoma with trophoblast-type giant cells (CA Moran). 2/3
- Rhabdoid tumor of the lung (SJ Melnick). 3/8
- Metastatic hemangiopericytoma of meninges (angioblastic meningioma) to pleura and paravertebral area (IJ Bleiweiss). 4/2
- Malignant fibrous histiocytoma of the lung (SJ Melnick). 4/8
- Well-differentiated adenocarcinoma simulating fetal lung (pulmonary blastoma) lung (A Sara). 4/13
- Benign solitary fibrous tumor of the pleura (CA Moran). 5/12
- Epithelioid hemangioendothelioma of the lung (GJ Berry). 6/1
- Paraganglioma of the lung (CA Moran). 7/13
- Congenital cystic lymphangiectasia of the lung (GJ Berry). 8/1
- Mucous cell adenoma of bronchial glands (S Ramon y Cajal). 8/14
- Diffuse pulmonary lymphangiomatosis (TV Colby). 9/5
- Pulmonary hydatidosis (S Ramon y Cajal). 9/13
- Therapy-related changes in a carcinoid tumor (TV Colby). 12/7
- Undifferentiated large cell carcinoma of the lung (S Ramon y Cajal). 12/16
- Lymphangioleiomyomatosis of the lung (TV Colby). 14/3
- Alveolar adenoma of lung (CA Moran). 15/11
- Solitary fibrous tumor of pleura with entrapped pulmonary parenchymal elements (G Berry). 18/2
- Pleomorphic adenoma of lung (LM Weiss). 18/18
- "Sclerosing hemangioma" of the lung (K Cooper). 19/4
- Pulmonary capillary hemangiomatosis (TV Colby). 19/5
- Pulmonary capillaritis in Wegener's granulomatosis (GJ Berry). 20/2
- Solitary fibrous tumor of the upper respiratory tract (M Miettinen). 22/13
- Rhodococcus equi infection in AIDS (TV Colby). 23/5
- Pulmonary alveolar microlithiasis (CA Moran). 24/11
- Congenital cystic adenomatoid malformation of the lung, type III (J Lamovec). 25/11
- Fat embolism in the lung and kidney (JKC Chan). 26/4
- Fibromatosis of the chest wall presenting as a pleural mass (TV Colby). 27/4
- Intra-arterial tumor emboli of the lung (GJ Berry). 28/2
- Hyalinized spindle cell lesion c/w intrapulmonary solitary fibrous tumor (G Falconieri). 28/9
- Erdheim-Chester disease involving the lung (TV Colby). 29/4
- ? Hemangiopericytoma? Solitary fibrous tumor multicentric metastatic to the lung (CA Moran). 29/13
- Disseminated toxoplasmosis (in transplanted lung) (TV Colby). 29/Quiz case-2
- Well differentiated neuroendocrine carcinoma of the lung (N Weidner). 30/Quiz case-1
- Pleuropulmonary blastoma, type I (JKC Chan). 31/4
- Inflammatory fibrosarcoma of the lung (TV Colby). 32/5
- Microcrystalline pulmonary intravascular material secondary to intravenous injection of oral Vicodin tablets (GJ Berry). 34/3
- Pulmonary epithelioid angiosarcoma (AP Dei Tos). 35/5
- Chronic rejection in lung transplant with herpes virus-type inclusions (S Ramon y Cajal). 35/14
- Giant cell interstitial pneumonia (JZ Sickel). 35/15

- Chester-Erdheim disease of the lung (S Suster). 35/Quiz Case-1
- Histiocytosis with signet ring change; negative for carcinoma (AM Gown). 36/11
- Fulminating pneumonia by corynebacterium jeikeium (PP De Saint Maur). 36/15
- Lung –symplastic, sclerosing hemangioma, with incipient sclerosing hemangiomas in surrounding lung (JKC Chan). 38/7
- Diaphragmatic stromal endometriosis with catamenial pneumothorax (M Fukunaga). 38/12
- Visceral juvenile xanthogranuloma of the lung (TV Colby). 39/4
- Pulmonary heterotopia in a monoamniotic twin (GJ Berry). 40/3
- High-grade pleural-based thymic carcinoma vs metastatic thymic carcinoma to pleura (AM Gown). 40/11
- Severe acute respiratory syndrome due to SARS coronavirus infection (JKC Chan). 41/2
- Lymphangiomatosis and multifocal micronodular pneumocyte hyperplasia (JKC Chan). 41/3
- Metastatic (benign) papilloma of the breast to the lung (TV Colby). 41/4
- Peripheral, extranodal, large T-cell lymphoma (NOS) of the trachea (J Forteza-Vila). 41/12
- Crystal storing histiocytosis of the lung (AL Folpe). 42/8
- Metastatic mixed tumor of salivary gland (parotid) to the lung (TV Colby). 43/Quiz case-1.
- Nodular “metastatic” calcification of the lung secondary to hyperparathyroidism (S Suster). 43/Quiz case-2
- Amebic pneumonia (TV Colby). 44/Quiz cases-2
- Hamazaki-Wesenberg bodies with granulomas (PE Wakely, Jr). 45/Quiz case-2
- Metastatic (benign) meningioma to the lung (TV Colby). 46/6
- Consistent with malignant solitary fibrous tumor of the pleura (S Ramon y Cajal). 46/14
- Unique pulmonary cystic, probably hamartomatous, lesions in the lung in a patient with von Hippel Lindau disease (TV Colby). 48/5
- Pulmonary adenofibroma (fibroadenoma of the lung, fibroleiomyomatous hamartoma, adenoleiomyomatous hamartoma) (H Dominguez-Malagon). 48/6
- Inflammatory myofibroblastic tumor of the lung (G Falconieri). 48/8
- Postradiation osteosarcoma of the pleura in a patient with previous diagnosis of Hodgkin’s disease and probable atypical myofibroblastic cell proliferation with ossification of soft tissue of the axilla (O Ben-Itzhak). 50/2
- Malignant mesothelioma (of the pleura) with invasion of the lung, presenting with pneumothorax, in a patient with (concurrent) mesothelioma in the peritoneum (TV Colby). 50/5
- High-grade malignant pleomorphic tumor of the pleura (S Ramon y Cajal). 50/16
- Endometriosis of the lung (C Moran). 53/19
- Iatrogenic pulmonary emboli (TV Colby). 52/6
- Combined small-cell carcinoma with skeletal muscle differentiation and spindle cell sarcoma component of myofibroblastic, lung (G Pelosi). 52/13
- Angiotropic metastasis of malignant melanoma (J Strauchen). 53/20
- Histologic changes (lung) consistent with so-called hyper-IgG4 disease (TV Colby). 54/6
- Chronic pneumonitis of infancy due to *abca3* gene mutation. (T Krausz). 54/10
- Xanthomatous variant of "inflammatory pseudotumor" of the lung ("unclassified epithelioid and spindle cell neoplasm with pseudoxanthomatous features"). (O Ben-Itzhak). 56/3
- Chest wall hamartoma. (E Montgomery). 56/13
- Deep extra-abdominal fibromatosis (desmoid tumor) of the chest with involvement of the parietal pleura and fat tissue of the mediastinum. (G Pelosi). 56/14
- Multiple pulmonary metastases of giant cell tumor of bone (J Lamovec). 57/13
- Massive embolic foreign material consistent with microcrystalline cellulose (T. Colby) 58/8

- Pulmonary leiomyomatosis in a patient diagnosed with sarcoma of the endometrial stroma with low level of malignancy (J Forteza-Vila). 59/15
- SETTLE, metastatic to lung (J Lamovec). 59/17
- Localized malignant mesothelioma, epithelioid type, pseudoglandular pattern (GJ Berry). 60/4
- Clear cell tumor of unknown etiology of the lung (G Falconieri). 60/11
- Elastofibroma (CA Moran). 60/18
- Diffuse pulmonary dendriform ossification with interstitial lung fibrosis in a patient with scleroderma and a mediastinal bronchogenic cyst. (M Bisceglia). 60/3
- Diffuse pulmonary dendriform ossification, idiopathic (M Bisceglia). 60/4
- Dedifferentiated solitary fibrous tumor of the pleura (H Dominguez Malagon). 61/10
- Pleuropulmonary Blastoma, type III (G Berry). 62/4
- Pleuropulmonary Blastoma, type I, regressed (G Berry). 62/5
- Silicone lung embolization from ruptured breast implant (TV Colby). 62/6
- Intravascular large B-cell lymphoma. (TV Colby). 62/7 (as a Quiz case)
- Pleomorphic sarcoma, NOS in the lung – probably metastasis from malignant phyllodes tumor of the breast (G Falconieri). 62/9
- Chronic granulomatous disease presenting as fungal pneumonia (T Krausz). 62/12
- Cystic bronchiectases in a patient with bilateral lung transplantation, previously diagnosed with Langerhans cell histiocytosis (A Marchevsky). 62/13 (as a Quiz case)
- Malignant meningioma, primary in the pleura (C Moran). 62/16
- Light-chain disease involving the lung (S Ramon y Cajal). 62/17
- Malignant small round cell tumor (NEC vs PNET vs others...) (M Sobrinho-Simoes). (62/15)
- Epithelioid angiosarcoma of the pleura secondarily invading the lung (S Suster). 63/Quiz case-3
- Congenital peribronchial myofibroblastic tumor (G Berry). (64/4)
- Metastatic chondrosarcoma with exclusively granular cell features. (T Colby) (64/5)
- Malignant melanoma of the lung; presumed lung primary in the absence of previous history of malignant melanoma and negative work-up for extrapulmonary lesions. (A Marchevsky) (64/12)
- Crystal-storing histiocytosis of the lung (S Suster). 65/Quiz case-2
- Hard metal/Cobalt pneumoconiosis (giant cell interstitial pneumonia; GIP) (G Elmberger). (66/5)
- Pleural dedifferentiated solitary fibrous tumour. (T. Mentzel) (66/11)
- Inflammatory pseudotumor/inflammatory myofibroblastic tumor of lung (J Strauchen). 66/16

## **THYMUS & MEDIASTINUM**

- Spindle cell thymoma of the mediastinum (CA Moran). 3/11
- Liposarcoma of the anterior mediastinum (CA Moran). 4/11
- Mediastinal multilocular thymic cyst with incidental seminomatous component (CA Moran). 8/13
- Biphasic neoplasm of the mediastinum (A Sara). 8/15
- Epithelioid hemangioendothelioma of the anterior mediastinum with osteoclast-type giant cells (CA Moran). 9/12
- Seminoma with cystic change in the thymus associated with epithelial proliferation (thymoma?) (TV Colby). 10/5
- Embryonal carcinoma (or yolk sac tumor) of the mediastinum (CA Moran). 10/14
- Schwannoma of the anterior mediastinum (CA Moran). 11/12
- Cervico-mediastinal hemangiolymphangiomatosis (S Suster). 11/17
- Thymoma (V Eusebi). 12/9
- Primary rhabdomyosarcoma of the mediastinum (CA Moran). 12/15
- Primary synovial sarcoma of the mediastinum (CA Moran). 14/8
- Malignant round cell tumor vs mediastinal sarcoma (malignant HPC) (J Forteza-Vila). 15/7
- Leiomyomatosis of the mediastinum (CDM Fletcher). 20/6
- Bronchogenic cyst compressing ascending aorta and left coronary artery (GJ Berry). 22/2
- Combined small cell neuroendocrine carcinoma of thymus with thymic carcinoid (CA Moran). 22/14
- Cortical thymoma/thymic carcinoma sequence (TV Colby). 24/5
- Congenital mediastinal teratoma with immature neural elements (IJ Bleiweiss). 27/2
- Acral myxoinflammatory fibroblastic sarcoma or inflammatory myxohyaline tumor of distal extremities with virocyte or Reed-Sternberg-like cells, or inflammatory myxoid tumor of soft tissue with giant bizarre cells (C Fisher). 29/9
- Mucoepidermoid carcinoma of the thymus (T Krausz). 32/9
- Rhabdomyomatous carcinoma of the thymus of the posterior mediastinum (CE Bacchi). 42/1
- Micronodular thymoma with lymphoid stroma (J Forteza-Vila). 45/10
- Mediastinal extrarenal rhabdoid tumor (undifferentiated sarcoma with rhabdoid features) (PE Wakely, Jr). 45/14
- Glomangioma of the posterior mediastinum (CE Bacchi). 51/2
- Hodgkin's lymphoma – mediastinum (I Damjanov). 53/6
- Neurinoma of the mediastinum with extensive regressive changes including pseudocystic spaces (ancient Schwannoma) (G Pelosi). 54/13
- Thymic carcinoma - mediastinum. (A Gown).
- Pulmonary Dirofilaria Immitis (JZ Sickel). 55/Quiz case-2
- Atypical mesothelial tumor, not otherwise specified (G Falconieri) 58/10
- Acquired thymic multilocular cyst with epithelial hyperplasia (medullary) and prominent lymphoplasmacytic and follicular lymphoid hyperplasia (D Spagnolo) 58/18
- ??? MPNST, epithelioid variant but low-grade of the posterior mediastinum (other diagnostic possibilities: myxopapillary ependymoma, thymoma – ectopic, ...) (CE Bacchi) 61/2

## **HEART & LARGE VESSELS**

- Tigroid degeneration of myocardium (N Cartagena). (10/3)
- Giant cell myocarditis (GJ Berry). (12/2)
- Carcinoid heart disease (GJ Berry). (16/1)
- Hypertrophic cardiomyopathy in an infant (M Bisceglia). (22/3)
- Isolated form of Takayasu arteritis (GJ Berry). (24/1)
- Cardiac fibroma (K Cooper). (29/3)
- Unclassified hemangioendothelioma variant, probably originating from the inferior vena cava of biologic potential uncertain (M Miettinen). (34/14)
- Hypereosinophilic syndrome (involvement of the heart) (TV Colby). (39/Quiz-Case-1)
- Angioinvasive scedosporium apiospermum (aspergillus-like) of the heart (J Forteza Vila). (43/10)
- Histiocytoid cardiomyopathy (GJ Berry). (46/2)
- Atrial myxoma with glandular inclusions (I Damjanov). (47/4)
- Necrotizing eosinophilic myocarditis with associated vasculitis, consistent with Churg-Strauss syndrome (JZ Sickel). (52/15)
- Intracardiac teratoma (left atrium) (G Berry). (54/1)
- Erdheim-Chester disease with cardiac involvement (J Strauchen). (57/17)
- *???? unknown:* pericardial lesion (S Suster). (63/19)
- Intravascular/Intravenous leiomyomatosis with intracardiac extension (P Wakely, Jr). (66/19)

## BREAST

- Pleomorphic adenoma (mixed tumor) of male breast (S Ramon y Cajal). 1/2
- Malignant phyllodes tumor with spindle cell and liposarcomatous elements (IJ Bleiweiss). 1/10
- DCIS of the breast versus papillary carcinoma (A Sara). 2/5
- Residual intraductal and infiltrating duct carcinoma of the breast with chemotherapy induced changes (IJ Bleiweiss). 3/1
- Tubular adenoma with atypical epithelial hyperplasia breast (S Suster). 5/15
- Ectopic ductal carcinoma of the breast arising in the axilla (MA Hurt). 7/8
- Foreign body reaction to silicone of the breast (MA Hurt). 8/2
- Atypical apocrine lesion of the breast (MA Hurt). 8/8
- Mixed tumor of the breast (A Sara). 11/14
- "Aggressive" juvenile fibroadenoma (LM Weiss). 11/19
- Pleomorphic invasive lobular carcinoma with apocrine differentiation (V Eusebi). 13/4
- ? Myofibroblastoma of the breast (CDM Fletcher). 14/4
- Pleomorphic invasive lobular carcinoma of the breast (N Weidner). 14/12
- Malignant phyllodes tumor of the breast with heterologous elements (IJ Bleiweiss). 15/2
- Fibroepithelial tumor of the breast with digital fibroma-like inclusions in stromal component (AP Dei Tos). 16/2
- Large cell lymphoma from MALT-oma of the breast (H Molina-Hirsch). 20/10
- Spindle cell (metaplastic) carcinoma of the breast with focal neural differentiation (JZ Sickel). 20/13
- Adenomyoepithelioma of the breast (IJ Bleiweiss). 21/2
- Granulocytic sarcoma of the breast (J Lamovc). 21/11
- Tubular adenosis with ductal carcinoma in situ (JKC Chan). 22/4
- IDC with neuroendocrine differentiation (endometrioid-like glandular....) (JZ Sickel). 22/17
- Pseudoangiomatous hyperplasia of the mammary stroma (IJ Bleiweiss). 23/2
- Epithelioid angiosarcoma of the breast (H Dominguez-Malagon). 23/7
- B-cell malignant lymphoma of the breast mimicking carcinoma (V Eusebi). 23/8
- Follicular dendritic sarcoma of the breast (C Fisher). 23/9
- Myeloid metaplasia of the breast (J Lamovc). 23/10
- Nodular fasciitis of breast? Fibromatosis? (IJ Bleiweiss). 25/3
- Mucinous cystadenocarcinoma of the breast (CE Bacchi). 28/1
- "Epimyoepithelial carcinoma plus a stromal sarcoma" of the breast (N Weidner). 28/Quiz case-2
- Adenoid cystic carcinoma of the breast, grade I (JZ Sickel). 30/12
- Low grade (miofibro-)sarcoma plus tubular carcinoma (collision tumor) versus sarcomatoid carcinoma of the breast (IJ Bleiweiss). 31/3
- Matrix producing carcinoma (malignant mixed tumor) or epimyoepithelial carcinoma of the (V Eusebi). 31/9
- Diabetic mastopathy (sclerosing lymphocytic lobulitis) (C Fisher). 31/10
- Low-grade breast tumor c/w adenoid cystic carcinoma (N Weidner). 32/17
- Microglandular adenosis of the breast (IJ Bleiweiss). 33/2
- Benign adenomyoepithelioma of the breast (D Ben Dor). 34/2
- Malignant phyllodes tumor associated with infiltrating lobular carcinoma of the breast (collision tumor) (J Lamovc)
- Myxoid liposarcoma, metastatic to the breast. (IJ Bleiweiss). 38/6
- Basal cell carcinoma of the nipple (IJ Bleiweiss). 42/5

- Florid papillomatosis (adenoma) of the nipple (M Fukunaga). 42/9
- ? Glycogen-rich (clear cell) carcinoma of the breast (PE Wakeley, Jr) (Follow-up in AMR)
- Sem. #45: on Quiz case 3 from Semin. #41: ICC evidence for myoepithelial, neuroendocrine or basaloid differentiation) (PE Wakeley, Jr).
- Osteogenic sarcoma, probably radiation induced of the breast (IJ Bleiweiss). 44/4
- Invasive adenosquamous carcinoma (low-grade metaplastic carcinoma). (IJ Bleiweiss). 46/4
- Invasive “breast tumor resembling the tall cell variant of papillary carcinoma of thyroid”
- (V Eusebi). 47/6
- Infiltrating ductal carcinoma of the breast with neuroendocrine features with charcoal pigment injected for intraoperative localization (J Lamovec). 47/Quiz case-1
- Epithelioid schwannoma (A Gown). 49/11
- In situ squamous cell carcinoma of the breast with myoepithelial cell differentiation (V Eusebi). 51/7
- Subcutaneous panniculitis-like T-cell lymphoma involving the breast (JA Strauchen). 51/16
- Cellular fibroepithelial tumor with malignant stroma (? Adenosarcoma atypical phyllodes tumor) (G Falconieri). 52/8
- Follicular dendritic cell tumor primary in breast (V Eusebi). 53/9
- Ectopic breast tissue – pubic site. (IJ Bleiweiss). (55/3)
- Primary mucinous cystadenocarcinoma of the breast. (S Ramon y Cajal). 56/15
- Anaplastic large cell lymphoma in the right breast adjacent to a breast implant. (G Berry). 56/4
- Syringomatous adenoma of nipple (IJ Bleiweiss). 57/3
- Eccrine spiradenoma of the breast (I. Bleiweiss). 63/4
- Solitary fibrous tumor of breast (vs periductal stromal tumor) (IJ Bleiweiss). (61/6)
- Lymphoepithelioma-like carcinoma, Regaud type, of the breast. (V Eusebi) (61/11)
- Anaplastic large cell lymphoma, ALK negative, breast implant-related (J Strauchen). 61/19
- Adenoid cystic carcinoma of the breast with solid high-grade areas (A Yosepovich). 61/23
- Secretory carcinoma of the breast (A Yosepovich). (63/22)
- Myofibroblastoma possibly involving fibroadenoma of the breast vs weird phyllodes. (IJ Bleiweiss) (4/65)
- Low grade (G1) invasive carcinoma, with features of syringoid (low grade adenosquamous) carcinoma merging with adenoid cystic carcinoma. (V Eusebi). (10/65)
- Benign breast lesion (adenomyoepithelioma vs hamartoma vs microglandular adenosis vs adenosis tumor). (A Yosepovich) (22/65)

## DIGESTIVE TRACT

- Penicillium marneffrei infection of the colon (JKC Chan). 4/4
- True histiocytic lymphoma/interdigitating reticulum cell sarcoma of the small intestine (CDM Fletcher). 5/5
- Measles appendicitis (J Goldstein). 7/7
- ? Possible "rhabdoid" variant of GIST of the stomach (LM Weiss). 7/18
- True histiocytic lymphoma of small intestine (M Miettinen). 8/11
- Glomus tumor of the stomach (IJ Bleiweiss). (9/2)
- Primary yolk sac carcinoma of the stomach (JZ Sickel). 9/16
- Granular cell epulis (M Hurt). 10/9
- Carcinoma of the anal ducts (M Miettinen). 15/10
- ? Hemangiopericytoma of the stomach (IJ Bleiweiss). 17/5
- Gastro-intestinal autonomic nerve cell tumor (GANT) (M Miettinen). 18/9
- Whipple's disease (J Lamovec). 19/11
- Gangliocytic paraganglioma (S Ramon y Cajal). 19/14
- Ectomesenchymal chondromyxoid tumor of the tongue (JKC Chan). 20/4
- Gastro-intestinal myogenic stromal tumor with prominent myxoid matrix (CA Moran). 20/11
- Angyostrongiloides Costaricensis of the appendix (H Molina-Hirsch). 21/13
- Intestinal endometriosis (C Goldenberg). 22/8
- Metastasis to the bowel from large cell carcinoma (? lung) (J Goldstein). 23/Quiz case-1
- Inflammatory follicular dendritic cell tumor of liver ("inflammatory pseudotumor of liver") (JKC Chan). 24/3
- "Benign intramural glandulo-cystic proliferation" in the bowel (N Weidner). 24/16
- Bilharzioma of the rectum (K Cooper). 24/Quiz case-2
- Bilharzioma of the rectum (histological glass slides (K Cooper). 25/4
- Enteropathy associated T-cell lymphoma (G Berry). 26/1
- Mesothelioma of the colon (AM Gown). 26/8
- Crohn's disease of the appendix vs idiopathic granulomatous appendicitis (PP de Saint Maur). 26/13
- Spindle cell carcinoma (carcinosarcoma) of the esophagus with prominent basaloid differentiation (AP Dei Tos). 27/6
- (Possible) colonic localization of Behcet's disease (PP de Saint Maur). 28/16
- Enteropathy-associated T-cell lymphoma (JZ Sickel). 28/18
- Colitis cystica profunda diffusa resulting of protracted ulcerative colitis (PP de Saint-Maur). 30/11
- Herpes proctitis in ulcerative colitis (K Cooper). 31/5
- Primary yolk sac tumor of the appendix versus poorly differentiated adenocarcinoma with yolk sac features (H Dominguez-Malagon). 31/8
- Pneumatosis cystoides intestinalis (M Bisceglia). 31/Quiz case-2
- Mucocele with myxoglobulosis of the appendix (JKC Chan). 32/4
- Benign schwannoma of digestive tract (PP de Saint-Maur). 32/13
- Ischemic colitis secondary to CMV vasculopathy (K Cooper). 33/4
- Pneumocystis carinii infection of the small intestine with CMV infection (BM Wenig). 35/19
- Duplicatio intestinalis (JZ Sickel). 35/Quiz case-2
- Phlegmonous enterocolitis due to E. coli (TV Colby). 37/2
- Mantle cell lymphoma, involving the intestine (LM Weiss). 37/19
- Colchicine effect in a hyperplastic polyp (E Montgomery). 38/17
- Multiple gastric intramucosal cysts and fundic gland polyps in Zollinger-Ellison's syndrome.

(PW Allen). 39/1

- Oncocytic carcinoma of the stomach (o parietal carcinom of the stomach) (M Michal). 39/15
- Pseudoneoplastic hyperplasia of the islet cells with perineurial spread of the pancreas most probably due to the obstruction of the ductus choledocus (M Michal). 39/16
- Clear cell change in colorectal adenoma (O Dietze). 40/6
- Malignant glomus tumor of the stomach (M Miettinen). 40/14
- Enterocolic (lymphocytic) phlebitis (E Montgomery). 40/15
- Hepatobiliary cystadenocarcinoma with “ovarian-like stroma” (S Ramon y Cajal). 40/16
- Necrotizing enterocolitis due to Clostridium septicum (JA Strauchen). 41/17
- Parachordoma / myoepithelioma of the stomach (G Falconieri). 42/7
- Brown bowel syndrome (E Montgomery). 42/13
- Churg-Strauss disease of the gut (TV Colby). 43/3
- Duodenal gangliocytic paraganglioma (CDM Fletcher). 43/9
- India ink endoscopic tattooing (M Bisceglia). 44/Quiz cases-1
- Giant cell tumor involving sigmoid colon, following excision of borderline mucinous ovarian tumor with sarcoma-like mural nodules (C Fisher). 45/8
- Abdominal angiostrongylosis due to angiostrongylus Costaricensis (JA Strauchen). 45/13
- True leiomyosarcoma of jejunum, high grade (M Miettinen). 47/14
- Inflammatory fibroid polyp of the small bowel (E Montgomery). 48/13
- Intestinal perineurioma with infiltrative features (CE Bacchi) (49/2).
- Neurofibromatous involvement of ileum with ‘diffuse ganglioneuromatosis’ in a patient with
- NF-1 and retroperitoneal malignant peripheral nerve sheath tumor (C Fisher). 49/8
- Gastric schwannoma (M Miettinen). 49/14
- ..... (M Wick). 49/Quiz case-1
- Multifocal duodenal gangliocytic paraganglioma with extensive ganglioneuromatous differentiation with lymph node involvement (AL Folpe). 50/7
- Russel body gastritis (G Falconieri). 50/9
- Mucosal tear / “fractured colon” in collagenous colitis with perforation (E Montgomery). 50/14
- Glomus tumor of the stomach (IJ Bleiweiss). 51/3
- Rhabdomyomatous giant fibrovascular polyp of the esophagus (PE Wakely, Jr). 51/17
- Histiocytic sarcoma of the stomach (LM Weiss). 51/18
- Gastrointestinal-type clear cell sarcoma (V Adsay). 52/1
- Intravascular large B-cell lymphoma involving an inflammatory fibroid polyp (AL Folpe). 53/12
- Gastric schwannoma (D Spagnolo). 54/17
- Filiform polyposis of the colon (S Suster). 54/18
- Recurrent malignant GIST with diffuse rhabdoid morphology - jejunum. (K Cooper). 55/5
- Diversion colitis. (O Diete). 55/7
- Dendritic reticulum cell tumor (sarcoma) arising in Castleman disease - apparently extranodal tumour – small bowel. (M Miettinen). 55/18
- Atypical lipomatous tumor/inflammatory well differentiated liposarcoma - retroperitoneum. (J Strauchen). 55/19
- Inflammatory myofibroblastic tumor of stomach (M Miettinen). 55/Quiz case-1
- Invasive poorly differentiated medullary-type carcinoma, arising in the ampulla. (V Adsay). 56/1
- Pyloric gland adenoma with high-grade dysplasia in a background of autoimmune metaplastic atrophic gastritis. (E Montgomery). 56/13
- Yttrium associated gastritis (O Ben-Itzhak) 58/3

- Colon with focal transmural ischemic necrosis following Kayexalate treatment for hyperkaliemia (T Krausz). 58/13
- Collision of metastatic lobular carcinoma of breast with primary sarcomatoid carcinoma of the small bowel (IJ Bleiweiss). 59/6
- Massive gastric juvenile/hyperplastic polyposis (SMAD4 related) with minute foci of invasive carcinoma (V Adsay). 60/1
- Solitary fibrous tumor with areas of giant cells (giant cell angiofibroma/giant cell rich solitary fibrous tumor) of the esophagus (E Montgomery). 60/17
- Heterotopic mesenteric ossification (HMO), also known as mesenteritis ossificans (I Damjanov). 61/7
- Endometriosis of the colon. (O Dietze). 61/9
- Intrabdominal epithelioid inflammatory myofibroblastic sarcoma (C Fisher).
- Sclerosing fibroinflammatory lesion (? type) of the neck (CDM Fletcher). 61/12
- ? Myofibroblastic tumor ?inflammatory pseudotumor ?myxoinflammatory fibroblastic sarcoma of the esophagus (S Suster). 61/20
- Soft tissue mass involving the sigmoid colon: → Rosai Dorfman disease (V Adsay) (62/1) (as a Quiz case)
- Malignant glomus tumor of stomach (C Fletcher). (63/10) Low-grade stromal tumor of the gastric wall – type undetermined ??? (S Suster). (63/18)
- Markedly thin colonic wall in chronic constipation: → ..... (V Adsay) (64/1) (as a Quiz case)
- Mixed adenoneuroendocrine carcinoma of the rectum (G. Elmberger) (64/6).
- Taxane effect in cholecystectomy specimen. (E Montgoery) (64/14)
- Sporadic microsatellite unstable colorectal carcinoma of the CIPM methylator phenotype
- (BRAF+) with extensive rhabdoid features and "probably secondary" SMARCB1 loss. (A Agaimy) (1/65)
- Secondary vascular proliferation (reactive angioendotheliomatosis) of the colon in a patient with ulcerative colitis and heart disease. (TV Colby) (5/65)
- Extrapleural solitary fibrous tumor of stomach, giant cell angiofibroma variant. (B Rubin) (66/13)

## LIVER

- Spindle cell tumor - ? Dendritic reticulum cell sarcoma of the liver (S Ramon y Cajal).  
7/14
- Unclassifiable malignant neoplasm of the liver (LM Weiss). 8/18
- Hepatocellular carcinoma with neuroendocrine features (LM Weiss). 10/20
- Fetal-type hepatoblastoma vs adenoma (N Weidner). 11/18
- Chronic rejection of the liver (S Ramon y Cajal). 13/10
- Hepatic cysticercosis (JZ Sickel). 18/14
- Angiomyolipoma of the liver (K Cooper). 21/4
- Mycobacterial avium infection in the liver (M Bisceglia). 20/18 (as a Quiz case-1)
- Liver in a "tropical splenomegaly syndrome" (CE Bacchi). 22/1
- Toxic acute necrosis in a liver with Caroli's disease (PP de Saint Maur). 22/16
- Intrahepatic cholangiocarcinoma (TV Colby). 23/4
- Undifferentiated (embryonal sarcoma) of the liver (M Miettinen). 24/10
- Bile duct cystadenoma vs metastatic adenocarcinoma (J Goldstein). 25/9
- Quiz-case 3: Liver ischemic necrosis secondary to medical embolization (M Bisceglia). 26
- Fibrolamellar (oncocytic) carcinoma of the liver with abundant cytoplasmic pale inclusions (H Dominguez-Malagon). 27/7
- Undifferentiated embryonal sarcoma of the liver (I Damjanov). 28/6
- Liver metastasis from acinar cell carcinoma of pancreatic origin (LM Weiss). 28/20
- Biliary adenofibroma (H Dominguez-Malagon). 29/7
- Epithelioid hemangioendothelioma of the liver (TV Colby). 30/3
- HELLP syndrome with pseudoangiosarcomatous features (J Forteza-Villa). 30/6
- Malignant neuroendocrine tumor in fibropolycystic disease of liver (J Goldstein). 30/7
- Infiltrating squamous cell carcinoma of the liver arisen in hepatic cyst of foregut type (AP Dei Tos). 33/6
- Metastatic renal cell carcinoma involving liver with associated peliosis hepatitis (JZ Sickel).  
39/17
- Lymphoplasmacytic lymphoma associated with peliosis hepatitis (CE Bacchi). 40/1
- GIST of the liver, metastatic to the lymph nodes, with giant cell reaction (I Damjanov).  
41/6
- Chronic lymphocytic leukemia and hepatocellular carcinoma (J Goldstein). 41/13
- PEC-oma of the liver (AM Gown). 42/10
- Hepatic "MALT" lymphoma (extranodal marginal-zone B cell lymphoma of mucosa-associated lymphoid tissue type) associated with primary sclerosing cholangitis (JA Strauchen). 47/15
- Metastatic primitive neuroectodermal tumor (resembling medulloepithelioma), arising in the setting of prior testicular germ cell tumor (AL Folpe). 48/9
- Epithelioid hemangioendothelioma with prominent intravascular dissemination (S Ramon y Cajal) 48/14
- Focal nodular hyperplasia of the liver with sarcoid-like granulomas (G Falconieri). 50/10
- "Spontaneous" multiple adenomas" (spontaneous adenomatosis) of liver (M Bisceglia).  
52/5
- Bile duct adenoma with neuroendocrine proliferation. (D Ben-Dor). 54/2
- Fatal systemic venous air embolism following endoscopic retrograde ERCP (M Bisceglia).  
54/5
- Hepatocarcinoma with metastases to lymph nodes, pancreas, spleen, heart, intestinal mucosa, scalp with mucinous differentiation. (J Forteza Vila). 55/13

- Inflammatory angiomyolipoma of the liver with features overlapping with IgG4-related pseudotumor (A Agaimy). 63/1
- ? EBV-positive inflammatory pseudotumor of liver with oligoclonal T-cell expansion secondary to EBV infection versus peripheral T-cell lymphoma (J Strauchen). (63/17)
- Undifferentiated embryonal sarcoma of liver (M. Bisceglia). (65/3)
- Adult Hepatoblastoma fetal type (F. Fedeli). (66/6)
- Spindle cell sarcoma, NOS of liver (likely malignant solitary fibrous tumour). (M. Sobrinho-Simoes) (66/14)

## PANCREAS

- Solid, cystic and papillary tumor of the pancreas (J Goldstein). 5/6
- Cystic islet cell tumor of the pancreas (V Eusebi). 7/5
- Ductal adenocarcinoma of heterotopic pancreas in pylorus (JJ Bleiweiss). 12/4
- Giant cell tumor of the pancreas (CJ Manivel). 14/5
- High grade sarcoma c/w malignant peripheral nerve sheath tumor vs a possible mucinous cystic neoplasm with associated sarcomatous stroma of the pancreas (BM Wening). 17/19
- Pancreatoblastoma (JKC Chan). 22/5
- Intraductal oncocytic papillary neoplasm of the pancreas (BM Wenig). 25/16
- Benign lymphoepithelial cyst of the pancreas (LM Weiss). 26/18
- Extrapancreatic solid-cystic tumor of the retroperitoneum (H Dominguez-Malagon). 35/7
- Metastatic acinar cell carcinoma, microglandular/microcystic variety) of the pancreas (T Krausz). 38/14
- Acinar cell cystadenoma of the pancreas (? acinar cystic transformation) (JKC Chan). 39/3
- Pancreatoblastoma, in adult (N Weidner). 39/Quiz Case-3
- Invasive (? ductal) carcinoma of the pancreas, basaloid type (V Eusebi). 43/7
- Intraductal and invasive oncocytic papillary-mucinous carcinoma of the pancreas (J Lamovec). 47/10
- Benign lymphoepithelial cyst, head of pancreas (PW Allen). 53/1
- True epithelial “mucoepidermoid” cyst arising within an intrapancreatic accessory spleen. (JZ Sickel). 54/15
- Primary ovarian carcinoma, microcystic type (E Silva). 54/16
- Intra-ductal papillary mucinous tumor with low-grade dysplasia (S Ramon y Cajal). 60/19
- Melanotic translocation Xp11-related neoplasm of renal type, primary to the ovary (AL Folpe). 61/14
- Pancreatic-type acinar cell carcinoma of the liver (A Agaimy). 61/24
- Pancreatoblastoma (F Fedeli). 64/8
- Intraductal papillary mucinous neoplasm of the pancreas with extensive high-grade dysplasia (CIS), pancreaticobiliary type, with microinvasion (V Adsay). 66/2

## **GYNECOLOGY (UTERUS, CERVIX, VAGINA & VULVA) & PREGNANCY**

- Primary neuroendocrine carcinoma of the uterus (S Suster). 1/1
- Placental site trophoblastic tumor (GA Herrera). 1/9
- EBV-associated B cell lymphoma of the placenta (GJ Berry). 4/15
- Angiomyofibroblastoma of the vulva (CDM Fletcher). 7/6
- Giant cell vasculitis involving left Fallopian tube (LA Moral). 7/12
- Benign "triton" tumor of the vagina (V Eusebi). 8/5
- Unusual glandular proliferation (metaplastic vs hyperplastic vs carcinoma) cervix (MJ Gaffey). 8/7
- Lymphoepithelioma-like carcinoma of the uterine cervix (JZ Sickel). 8/16
- Leiomyoma with perinodular hydropic degeneration (CDM Fletcher). 10/8
- Various diagnoses: "Undifferentiated malignant tumor" of the uterus, probably metastatic, with epithelioid morphology (T Krausz). 11/8
- Malignant mixed mullerian tumor of vagina (LA Moral). 11/11
- Atypical polypoid ademomyoma of the uterus (M Bisceglia). 12/3
- Endolymphatic stromal myosis & retroperitoneal metastasis having pseudoangiosaromatous pattern of growth (J Lamovc). 12/12
- Placental site trophoblastic tumor (JZ Sickel). 14/10
- Endometrial mullerian adenosarcoma (LA Moral). 16/7
- Leiomyoma with pregnancy associated changes vs leiomyosarcoma (T Krausz). 19/10
- Low grade endometrial stromal sarcoma vs metastatic adenocarcinoma in the uterus (H Molina-Hirsch). 23/11
- Invasive hydatidiform mole with associated malignant trophoblastic proliferation (JZ Sickel). 24/13
- Giant adenomatoid tumor of the uterus (S Suster). 26/17
- Metastatic low-grade endometrial stromal sarcoma from the pelvis (TV Colby). 27/5
- Ligneous cervicitis (SJ Schnitt). 28/17
- ? Spindle cell epithelioma of the vagina. ? Blastematous heterotopic Wilm's tumor (T Krausz). 29/11
- Low-grade endometrial stromal sarcoma of the vagina (CE Bacchi). 32/2
- Cotyledonoid dissecting leiomyoma of the uterus (JKC Chan). 32/3
- Placental site trophoblastic tumor (M Michal). 34/16
- Malignant melanoma of the vagina with ganglioneuroblastic differentiation (I Damjanov). 35/4
- Dedifferentiated liposarcoma of the vulva (T Krausz). 36/12
- Pseudoactinomycotic radiate granules in endocervical curettage (K Cooper). 37/3
- Sex-cord tumor with annular tubules unassociated with Peutz-Jeghers' syndrome (M Michal). 37/12
- Endometrial marginal-zone B cell lymphoma, extranodal (MALT-type) (JA Strauchen). 37/17
- Malignant papillary mesothelioma presenting as an ovarian mass (primary ovarian malignant mesothelioma?) (H Dominguez-Malagon). 39/8
- Low-grade carcinoma of unknown origin? \*\*\*F-Up in Sem. #45: low-grade endometrial stromal sarcoma (S Suster). 39/19
- Malignant myoepithelioma of the vulva (M Fukunaga). 40/10
- Acantholytic /pseudovascular squamous cell carcinoma (with myxoid stroma) of the vulva (CDM Fletcher). 41/11
- Myoepithelioma of the vulva (M Bisceglia). 41/Quiz case-1

- Subinvolution of the uteroplacental arteries [subinvolution of the placental site] (PE Wakeley, Jr). 41/20
- Uterine adenomatoid tumor (S Ramon y Cajal). 42/14
- Low-grade endometrial stromal sarcoma with sex cord differentiation (AP Dei Tos). 45/5
- Small cell neuroendocrine carcinoma of uterine cervix (JZ Sickel). 46/15
- Low grade malignant Mullerian mixed tumor of the endometrium (O Dietze). 47/5
- Dedifferentiated endometrioid adenocarcinoma of the uterus (EG Silva). 47/13
- Ligneous vaginitis in association with adenosis (T Krausz). 48/11
- Uterine leiomyoma with non-lymphomatous massive T-cell infiltrates secondary to treatment with GnRH agonist (D Ben Dor). 48/1
- Perivascular epithelioid cell tumor (PEComa) of the uterus (M. Fukunaga). 50/11
- Malignant ectomesenchymoma arising in a uterine MMMT (K Cooper). 51/4
- Chronic histiocytic interstitialitis (O Dietze). 51/6A
- Poorly differentiated synovial sarcoma of the vagina (G Pelosi). 51/14
- Papillary squamotransitional cell carcinoma of the uterine cervix (M Fukunaga). 52/9
- Embryonal rhabdomyosarcoma of the uterine cervix (PE Wakely, Jr). 53/21
- Mesonephric adenocarcinoma of the uterine cervix with mesonephric hyperplasia (M Fukunaga). 54/9
- Cotyledonoid dissecting leiomyoma of the uterus (Sternberg tumor) (M Fukunaga). 58/12
- Desmoplastic small round cell tumor confined to uterus (AM Gown). 59/16
- Wolffian tumor of the broad ligament (female adnexal tumor of probable Wolffian origin) (M Fukunaga). 60/13
- Aggressive angiomyxoma, left labium majus of vulva (PW Allen). 61/1
- ? Pseudotumoral reactive fibro/myofibroblastic proliferation; ?inflammatory myxoinflammatory fibroblastic sarcoma) of the neck (S Suster). 61/25
- Soft tissue mass involving the wall of sigmoid colon (V Adsay) 62/1 (as a Quiz case)
- Mobile mass in the left vulvar region of 29-year-old female (E Zambrano). 62/20 (as a Quiz case)
- Benign endocervical polyp with exuberant gestational-associated changes (K Cooper). 63/5
- Pseudosarcomatous fibroepithelial stromal polyp of perivulvar skin (J Lamovec). 63/12
- Hyalinized endometrioid adenocarcinoma (M Michal). 63/13
- Intraplacental gestational choriocarcinoma (E. Silva). 63/16
- Multiple plexiform tumorlets of the uterus (B. Rubin). (64/16)
- Polypoid endometriosis with necrosis clinically simulating a sarcoma in the pouch of Douglas (PA Allen). (2/65)
- Endometrial stromal sarcoma with YWHAE-FAM22A/B (NUTM2A/B) rearrangement (C. Fisher). (12/65)

## OVARY & UTERINE SALPYNX

- Gonadoblastoma of the ovary (G Schibi-Brilliant). (1/5)
- Goblet cell carcinoid of the ovary (IJ Bleiweiss). 2/7
- Metastatic lobular carcinoma of the breast to the ovary (LA Moral). 2/10
- Keratin globules of the ovary (JKC Chan). 3/4
- Large cell lymphoma with sclerosis of the ovary (GJ Berry). 5/1
- Combined germ cell / sex-cord-epithelial tumor of the ovary (SJ Melnick). 5/9
- Ovary infiltrated by malignant melanoma (IJ Bleiweiss). 6/2A
- Papillary serous adenocarcinoma of ovary (J Goldstein). 6/7A
- Granulosa cell tumor of ovary with florid mesothelial hyperplasia (PW Allen). 15/1
- Hepatoid carcinoma of the ovary (J Goldstein). 18/7
- Poorly differentiated angiosarcoma of the ovary (T Krausz). 22/10
- Oxyphilic clear cell carcinoma of the ovary (CE Bacchi). 25/2
- Primary melanoma originated in cystic teratoma (H Molina-Hirsch). 27/12
- Retrograde lymphatic spread of metastatic ovarian carcinoma from axillary lymph node metastasis (IJ Bleiweiss). 29/2
- Adenoid-cystic carcinoma of the ovary (M Michal). 30/9
- Ovarian, cystic monodermal teratoma (J Goldstein). 32/8
- FATWO (Wolffian adnexal tumor) (M Michal). 32/10
- Primitive neuroectodermal tumor of the ovary, arising in a teratoma (I Damjanov). 33/5
- Well differentiated endometrioid carcinoma resembling FATWO (JZ Sickel). 33/15
- Additional case to Seminar # 33 –case 15 (JZ Sickel). FATWO-like endometrioid primary carcinoma of the uterine salpynx (M Bisceglia). 35
- Ovarian ependymoma (N Weidner). 39/Quiz case-2
- Pregnancy luteoma with florid degenerative changes vs juvenile granulosa cell tumor arising independently adjacent to (collision) or pregnancy luteoma vs juvenile granulosa cell tumor with extensive luteinization (mimicking luteoma) (D Ben Dor). (40/2)
- Prolapse of the fallopian tube after hysterectomy associated with exuberant angiomyofibroblastic stromal response (M Michal). (47/11)
- Hepatoid carcinoma with serous component of the Fallopian tube (M Fukunaga). (48/10)
- Female adnexal tumor of probable Wolffian origin (FATWO), mesentery and retroperitoneum (PW Allen). (49/1)
- Adult Wilms' tumor, monophasic epithelial type, metastatic (PE Wakely Jr). (49/19)
- Metastatic pancreatic adenocarcinoma simulating a primary mucinous tumor of the ovary (JZ Sickel). (50/17)
- Well-differentiated Sertoli-Leydig cell tumor of the ovary (E Silva). (51/15)
- Primary ovarian fibrosarcoma (S Ramon y Cajal). (54/14)
- Microcystic stromal tumor of the ovary (CE Bacchi). (57/2)
- Ovarian fibroma with hyaline globules (M Michal). (57/14)
- Low-grade serous carcinoma of ovary (EG Silva). (57/16)
- Clear cell ovarian adenocarcinoma arising in association with a dermoid cyst with striking verrucous hyperplasia (JZ Sickel). (58/17)
- Mixed-epithelial papillary cystadenoma of borderline malignancy of the ovary, Mullerian-type MEBMM with squamous overgrowth (SO) (M Fukunaga). (66/8)
- Adenocarcinoma, primary (endometrioid?) or metastatic to ovary (A Gown). (66/9)
- Ovarian steroid cell tumor, not otherwise specified (malignant) (T Krausz). (66/10)

## KIDNEY

- Metanephric adenoma of the kidney (JKC Chan). 2/9
- Sarcomatoid carcinoma vs angiosarcoma of the kidney (S Suster). 7/17
- Partially differentiated cystic nephroblastoma (SJ Melnick). 9/9
- Inflammatory pseudotumor of urinary bladder (J Goldstein). 13/7
- Mesoblastic nephroma plus multicystic nephroma in adult (M Bisceglia). 13/14
- Congenital mesoblastic nephroma (M Bisceglia). 14/2
- Sarcomatoid renal carcinoma (M Miettinen). 14/6
- Collecting duct carcinoma of kidney (N Weidner). 16/13
- Renal carcinoma and angiosarcoma ("collision tumor") (CDM Fletcher). 18/5
- Inflammatory pseudotumor of bladder (pseudosarcomatous fibromyxoid tumor) (N Weidner). 18/17
- Metanephric adenoma (JKC Chan). 20/5
- Solitary fibrous tumor of the kidney (LM Weiss). 24/17
- Inflammatory pseudotumor of the kidney (M Bisceglia). 26/2
- Retroperitoneal lymphangiomyoma versus (renal) angiomyolipoma without adipocytic component (M Bisceglia). 26/3
- Fat embolism in the lung and kidney (JKC Chan). 26/4
- Unusual renal cell carcinoma with tubulo-papillary features, unclassified (S Suster). 27/15
- Combined renal cell oncocytoma and angiomyolipoma (W Tsang). 27/17
- Chronic clofazimine therapy effect (TV Colby). 27/Quiz case-1
- Renal extranodal Rosai-Dorfman's disease (AP Dei Tos). 29/6
- Polypoid cystitis due to schistosoma hematobium (S Ramon y Cajal). 30/10
- Mixed epithelial-stromal tumor of the kidney (CE Bacchi). 34/1
- Papillary (chromophil) renal cell carcinoma (G Falconieri). 34/8
- Extragastrointestinal stromal tumor of the urinary bladder sierosa (M Miettinen). 34/15
- Benign renal angiomyoadenomatous tumor (M Michal). 34/17
- Spindle and cuboidal renal cell carcinoma (loopoma) (M Michal). 37/13
- Partially poorly differentiated renal cell carcinoma with small cell anaplastic (neuroendocrine) tumor (O Dietze). 38/9
- Pediatric renal neoplasm characterized by epithelioid morphology, basememnt membrane production, focal HMB-45 immunoreactivity, and t(6;11) (p21.1;q12) (DV Spagnolo). 38/19
- Mucinous tubular and spindle cell carcinoma of the kidney (LM Weiss). 41/21
- Unilateral renal cystic disease of nongenetic etiology (M Bisceglia). 42/4
- Inflammatory myofibroblastic tumor of the kidney (K Cooper). 43/4
- Renal cell carcinoma, chromophobe cell type, pigmented, associated (in collision) with angiomyolipoma (J Lamovec). 43/11
- Primary synovial sarcoma of the kidney of the kidney (H Dominguez Malagon). 45/Quiz case-1
- Juxtaglomerular cell tumor (E Montgomery). 46/13
- Renal oncocytosis (PE Wakely, Jr). 47/16
- Cellular type of congenital mesoblastic nephroma (IJ Bleiweiss). 49/4
- Medullary sponge kidney with small kidney (M Bisceglia) (50/4).
- Clear cell carcinoma of the kidney with sarcomatous areas of divergent differentiation (chondrosarcoma, rhabdomyosarcoma) (H Dominguez-Malagon). 50/6
- Mixed epithelial and stromal tumor of the kidney (CA Moran). 50/15

- Oncocytic papillary renal cell carcinoma (M Michal). 53/16
- Thyroid follicular carcinoma-like tumor of the kidney (or thyroid-like follicular variant of papillary carcinoma?) (O Ben-Itzhak). 52/3
- Malignant Glomus Tumor (Glomangiosarcoma) of the kidney. (V Adsay). 54/1
- Tubulocystic carcinoma of the kidney (JKC Chan). (55/4)
- Angiosarcoma of the kidney. (M Fukunaga). 56/9
- De-differentiated chromophobe renal cell carcinoma with osteosarcomatous differentiation (JZ Sickel). 56/16
- Wilms' tumor with heterologous elements and diffuse anaplasia (I Damjanov). 57/5
- Unclassified, non-pleomorphic renal sarcoma (possibly de novo malignant solitary fibrous tumor of kidney) (M Bisceglia). 58/7
- Metanephric adenoma (PE Wakely, Jr) 58/19
- Anastomosing hemangioma of kidney (C Fisher). 59/12
- Papillary thyroid carcinoma metastatic to the kidney mimicking a primary papillary renal cell carcinoma (PE Wakely, Jr). 59/23
- Anastomosing hemangiomas of the kidney (AM Marchevsky). 60/15
- Aggressive angiomyxoma, left labium majus (PW Allen). 61/1
- Oncocytoma with marked diffuse degenerative atypia (J Epstein). 62/8
- Renal metanephric adenoma (L Weiss). (63/20)
- Metanephric stromal tumor in a 2-year-old female child (K Cooper). (6/20)
- Renal cell carcinoma, clear cell type, with very prominent smooth muscle proliferation (C Fletcher). (13/20)
- Biphasic alveolo-squamoid renal carcinoma (O Hes). (15/65)
- Primary renal Ewing sarcoma/PNET (F Petersson). (20/65)

## **URINARY TRACT**

- Squamous cell carcinoma of bladder with schistosoma hematobium (V Eusebi). 15/6
- Primitive choriocarcinoma of bladder (AP Dei Tos). 18/3
- Transitional cell carcinoma of the bladder merging with a large cell anaplastic carcinoma component, an invasive micropapillary component and oat cell carcinoma (V Eusebi). 27/8
- Osteosarcoma of the bladder (O Dietze). 30/4
- Lymphoepithelioma-like carcinoma of the renal pelvis (M Fukunaga). 36/10
- Carcinosarcoma of the urinary bladder metastatic to the clitoris (I Damjanov). 37/4
- Radiation-induced pseudocarcinomatous proliferations of the urinary bladder (JKC Chan). 38/8
- Adenocarcinoma of the bladder with well differentiated tubulo-villous and poorly differentiated signet ring cell areas, most probably of urachal origin (O Dietze). 42/6
- Poorly differentiated transitional cell carcinoma with clear cell features (JZ Sickel). 42/15
- Sarcomatoid urothelial carcinoma of the bladder with pseudoangiosarcomatous features (D Ben-Dor). 44/1
- Extramedullary hematopoiesis involving urinary bladder (JZ Sickel). 44/16
- Low-grade sarcoma of the bladder, multinodular (I Damjanov). 51/5

## MALE GENITAL SYSTEM

- Prostatic chips infiltrated by poorly differentiated adenocarcinoma with signet ring cell differentiation (IJ Bleiweiss). 6/2B
- Adenocarcinoma of the prostate plus "adenoid basal cell" carcinoma (S Ramon y Cajal). 10/15
- Leydig cell tumor (malignant) with unusual myxoid change (JKC Chan). 11/3
- Carcinosarcoma of the rete testis vs embryonal carcinoma with chondrosarcomatous elements (H Dominguez-Malagon). 12/8
- Sclerosing adenosis of prostate (JKC Chan). 15/3
- Sclerosing Sertoli tumor (LM Weiss). 16/14
- Phyllodes tumor of prostate (C Fisher). 17/11
- Malignant mesothelioma -paratesticular (J Goldstein). 22/9
- Talerman's tumor of the testis (M Michal). 24/9
- Sex cord stromal tumor of the testis with features of the adult type of granulosa cell tumor (M Michal). 26/10
- Spernic-gonadal fusion (JZ Sickel). 26/14
- Anaplastic variant of spermatocytic seminoma with a high grade sarcoma demonstrating myogenic differentiation (K Cooper). 27/3
- Testicular tumor of the adrenogenital syndrome (M Michal). 28/14
- Phyllodes tumor of the prostate? Low-grade soft tissue neoplasm? Adenosarcoma of prostate? (CDM Fletcher). 29/10
- Malignant Sertoli cell tumor with focal spindle cell (sarcomatoid) features (S Suster). 29/Quiz case-3
- Non-germ cell tumor arising in a germ cell tumor (G Falconieri). 32/7
- Malignant adenomatoid tumor of the testis vs adenomatoid tumor (V Eusebi). 33/8
- Syncitiotrophoblastic cell-rich seminoma (G Falconieri). 36/8
- Brucella orchitis (M Bisceglia). 38/5
- Coccidioidomycosi of the testes and epididymis (JZ Sickel). 40/17
- Leydig cell tumor with adipocytic differentiation and spindle cell differentiation with extensive stromal myxoid/myxohyaline change (and osteoid?) (DV Spagnolo). 42/16
- Bothryoid or phyllodes prostatic adenocarcinoma (G Falconieri). 44/Quiz case-3
- Malignant Sertoli cell tumor metastatic to the abdominal lymph nodes (I Damjanov). 45/4
- (?Burnt out primary in the testis with) metastases (?yolk sac tumor plus teratoma with neuroepithelioma component) in the retroperitoneum and metastatic chondrosarcoma to the heart (S Suster). (23).
- Malignant Leydig cell tumor of the testis in a 1 year-old boy with isosexual pseudoprecocity (CE Bacchi). 47/2
- Familial complete androgen insensitivity syndrome (Morris syndrome or testicular feminization syndrome) in 2 sisters (M Bisceglia). 48/3
- Seminoma with associated hyperplasia and cystic dilatation of rete testis (JZ Sickel). 48/15
- Solitary fibrous tumor of the prostate (H Dominguez-Malagon). 53/8
- Sertoliform adenoma of the rete testis (A Gown). 53/14
- Mature cystic teratoma with sarcomatous component (embryonal rhabdomyosarcoma) (metastasis in a lymph node (LM Weiss). 53/22
- Scrotal lymphoedema (with smooth muscle hyperplasia) (CDM Fletcher). 55/11
- Periprostatic gastro-intestinal stromal tumor (D Ben Dor). 58/2

- Primary embryonal rhabdomyosarcoma of prostate in adult (M Bisceglia). 59/3
- Extensive intraductal carcinoma of the prostate (IDC-P) with separate incidental minute foci of Gleason score 3+3=6 adenocarcinoma (J Epstein). 60/10
- Placental site trophoblastic tumor of the testis arising as a component of germ cell tumor (M Michal). 61/17
- Signet-ring stromal tumor of the testis (F Fedeli). 62/10
- Yolk sac carcinoma, parietal yolk sac type, in a lymph node metastasis of a testicular NSGCT (I Damjanov). 63/6

## **LYMPH NODES, BONE MARROW, PERIPHERAL BLOOD**

- Keratin globules in lymph node in a patient with squamous cell carcinoma (S Suster). 2/1
- Metastatic paaganglioma in lymph nodes (IJ Bleiweiss). 5/2
- Follicular small-cleaved cell lymphoma of the lymph node (N Cartagena). 5/3
- Diffuse large cell lymphoma of B-lineage, with prominent fibrillary matrix and rosettes, of lymph node (JKC Chan). 6/4
- Follicular dendritic reticulum cell tumor of the lymph node (CDM Fletcher). 6/6
- Monocytoid B cell lymphoma of the lymph node (LM Weiss). 6/18
- Overlap ALCL/HD of the lymph node (GJ Berry). 7/1
- Kawasaki's disease (GJ Berry). (9/1)
- Large B-cell lymphoma associated with unclassified sarcoma ("collision tumor") (GJ Berry). 10/1
- Ki-1 lymphoma vs lymphocytic depletion Hodgkin's disease (SJ Melnick). 10/11
- Kikuchi's disease (GJ Berry). 11/1
- Non-Hodgkin's B-cell lymphoma (monocytoid with large neoplastic B-cell) rich in non neoplastic reactive T-cells (J Forteza Villa). 11/7
- Leishmania lymphadenitis (JZ Sickel). 12/18
- Large cell anaplastic lymphoma secondary to chronic immunosuppression (JA Strauchen). 12/19
- Hairy cell leukemia in extralymphoid tissue (LM Weiss). 12/22
- Leprosy lymphadenitis (JA Strauchen). 13/11
- Toxoplasmosis of the brain in a HIV-patient (LA Moral). 14/7
- Monocytic sarcoma (JA Strauchen). 15/13
- Myelodysplastic syndrome with "red lips" eosinophil precursors (JKC Chan). 15/15
- ? Neoplastic malignant histiocytic process (J Goldstein). 16/5
- Castleman's disease with dendritic reticulum cell dysplasia (JZ Sickel). 16/10
- Hodgkin's disease with synus histiocytosis with massive lymphadenopathy (DV Spagnolo). 16/11
- Peripheral T-cell lymphoma with erythrophagocytic histiocytosis in bone marrow? (M Bisceglia). 17/4
- Mycobacterial necrotizing lymphadenitis (K Cooper). 17/7
- Anaplastic large cell lymphoma CD30+ (J Lamovec). 17/13
- Gaucher disease, type I (S Ramon & Cajal). 17/17
- Polyvinil-pirrolidone granuloma of bone (JA Strauchen). 17/18
- Hodgkin's disease mixed cellularity with multi-nucleated giant cells of Warthin-Finkeldey type (CE Bacchi). 18/1
- Reticulum cell tumor with monoclonal gammopathy (M Michal). 18/8
- Inflammatory pseudotumor of the lymph node (CA Moran). 18/12
- Histiocytosis X of lymph node "S-100 protein negative" (Langerhans' cell granulomatosis) (S Suster). 18/16
- Hodgkin's disease versus Hodgkin's disease-like Ki-1 positive ALC lymphoma (JA Strauchen). 19/15
- Malignant lymphoma with rosette formation (S Suster). 19/16
- Anaplastic large cell lymphoma with high content of reactive histiocytes (J Goldstein). 20/7
- Malignant mastocytosis with myeloproliferative syndrome (LM Weiss). 20/17
- Gamma heavy chain disease (JA Strauchen). 21/15
- Canine lymphoma (JA Strauchen). 23/13

- Castleman's disease (hyaline-vascular variant) with follicular dendritic cell stromal overgrowth (sarcoma) (M Michal). 24/8
- Angiomyomatous hamartoma of the lymph node (M. Bisceglia). 24/Quiz-case-1
- T-cell rich large B-cell lymphoma (JA Strauchen). 25/14
- Post-transplantation syndrome in lymph node (Castleman's multicentric disease plus Kaposi's sarcoma) related to KSHV (JZ Strauchen). 27/14
- Light chain disease associated with plasmacytoma (lymph node?) (JKC Chan). 28/5
- Fatal Kikuchi's disease versus LES (J Forteza-Vila). 28/10
- Blood test positive for a case of homozygous sickle cell anemia (M Bisceglia). 28/Quiz case-1
- Congenital dyserythropoietic anemia, type II (M Bisceglia). 29/Quiz case-1
- Atypical lymphoid infiltrate, consistent with an abnormal immune response (LM Weiss). 30/14
- Anaplastic T-cell lymphoma (I Damjanov). 31/6
- (AL-)Amyloid lymphadenopathy (J Lamovec). 31/13
- Angiotropic B-cell lymphoma (JA Strauchen). 31/14
- Agranular CD4+CD56+CD2- cutaneous lymphoma (DV Spagnolo). 32/14
- Mastocytosis (JA Strauchen). 33/16
- T-cell granular lymphocytic leukemia involving lymph node (DV Spagnolo). 34/19
- Peripheral T-cell lymphoma unspecified (predominantly large cell) (J Forteza-Vila). 35/11
- Extranodal dendritic reticulum cell sarcoma of the tonsil (GJ Berry). 36/3
- Lymph node –involvement by angiomyolipoma (JKC Chan). 36/6
- Aggressive systemic mastocytosis, myelodysplastic syndrome (chronic myelomonocytic leukaemia) (O Dietze). 36/7
- Dendritic reticulum cell sarcoma, probably of nodal origin (M Miettinen). 36/14
- Interdigitating reticulum cell sarcoma? (CA Moran). 37/14
- Parvovirus B19 infection of bone marrow (JZ Sickel). 37/16
- Langerhans' cell sarcoma (malignant histiocytosis X) (J Forteza-Vila). 39/12
- ALK-negative anaplastic large cell lymphoma (LM Weiss). 39/21
- Infectious mononucleosis (JA Strauchen). 39/18
- Toxoplasmic lymphadenitis (M Bisceglia). 40/4
- Aggressive NK-cell lymphoma with terminal hemophagocytic syndrome (DV Spagnolo). 40/18
- Polymorphous hemangioendothelioma of the lymph node (PE Wakely, Jr) (Follow-up in AMR #45: low-grade angiosarcoma). 41/Quiz case-3.
- Kaposi's sarcoma with unusual features of the iliac lymph node (C Fisher). 43/8
- Intranodal palisaded myofibroblastoma (AL Folpe). 46/8
- Hamazaki-Wesenberg bodies ("yellow-brown bodies") in granulomatous lymphadenitis (GJ Berry). 48/2
- Lymph node – Kawasaki disease (JKC Chan). 48/4
- Langerhans cell histiocytosis of lymph node. (52/2)
- Mastocytosis in lymph node (CE Bacchi). 53/2
- Sporadic lymphangioleiomyomatosis involving lymph nodes (and lung) (M Bisceglia) 58/6
- Lymph node involvement by lymphangioleiomyomatosis (LMA) (O Dietze).59/9
- Systemic mastocytosis initially masquerading as undifferentiated pleomorphic sarcoma with metastasis to lymph node (PE Wakely). 62/19
- Lymphadenopathic Kaposi's sarcoma with Castleman-like changes (S Suster). (63/quiz case 1)

- ALK-positive anaplastic large cell lymphoma mimicking nodular sclerosis Hodgkin lymphoma with null phenotype. (C Bacchi) (64/2)
- Seminoma (cKIT, sall4 positive) developing in a cryptorchid testis s/p orchiopexy and presenting as a contralateral inguinal lymph node metastasis. (D Ben Dor) (64/3)
- Follicular dendritic cell sarcoma, recurrent, arising in hyaline-vascular Castleman disease and containing an infiltrate of immature thymic T cells. (D Spagnolo) (64/17)
- Transformation of follicular lymphoma, Grade 2 into CD30-positive large B-cell lymphoma with anaplastic features with exclusive involvement of subcapsular and medullary sinuses. (C Bacchi) (66/3)

## **SPLEEN**

- Spleen with paraimmunoblastic variant of small lymphocytic lymphoma/leukemia (N Cartagena). 7/3
- Littoral cell angioma of the spleen (JKC Chan). 7/4
- Splenic large B-cell lymphoma with a red pulp distribution (M Miettinen). 9/10
- Littoral cell angiosarcoma of the spleen (M Miettinen). 11/10
- Littoral cell angioma of the spleen plus renal cell carcinoma plus angiomatous meningioma (M Bisceglia). 20/3
- HHV-8 related Castleman's disease in lymphnode & spleen in a HIV+ patient (S Ramon y Cajal). 25/13
- Primary malignant mesothelioma of the spleen (W Tsang). 25/15
- Banti's syndrome (J Forteza-Vila). 26/7
- Inflammatory myofibroblastic tumor of the spleen with necrotizing, suppurative granulomatous inflammation (DV Spagnolo). 30/13
- Splenic lymphangioma. (CDM Fletcher). 39/11
- Gamna-Gandy bodies in splenomegaly, probablysecondary to an underlying liver disease (O Dietze). 51/6B
- Splenic marginal zone lymphoma with progression to a diffuse B cell lymphoma with over-expression of MYC (J Forteza-Vila). 53/13
- Gamma-delta lymphoma, perhaps an aggressive variant of hepatosplenic T-cell lymphoma of spleen. (LM Weiss). 55/23
- Florid marginal zone hyperplasia of the spleen mimicking splenic marginal zone lymphoma. (DV Spagnolo). 56/17
- Sclerosing angiomyoid nodular transformation (SANT) of the spleen (J Strauchen). 59/20
- Indeterminate cell tumor of the spleen (LM Weiss). 59/24
- Littoral cell angioma of the spleen (E Montgomery). 62/15

## **PERITONEUM & ABDOMEN-NOS**

- Rhabdomyosarcoma (of the pelvis) (J Goldstein). 6/7B
- Intra-abdominal desmoplastic small round cell tumor (M Miettinen). 6/11
- Embryonal carcinoma of the abdomen (S Suster). 6/17
- Gliomatosis peritonei (JZ Sickel). 10/17
- Benign peritoneal micro- and macro-cystic mesothelioma, with focal mural mesothelial proliferation (J Lamovec). 13/9
- Angiosarcoma of peritoneum (LM Weiss). 14/13
- Malignant mesothelioma, "lymphohistiocytic" variant (T Krausz). 16/6
- Recurrent abdominal mesenteric fibromatosis (S Suster). 16/12
- Malignant mesothelioma, "sarcomatous" type, with prominent lymphoid reaction (TV Colby). 17/8
- Florid mesothelial hyperplasia versus malignant mesothelioma (S Ramon & Cajal). 21/14
- Hydatid cyst of the abdomen (K Cooper). 23/3
- Lymphohistiocytoid malignant mesothelioma (JA Strauchen). 29/14
- Malignant epithelioid neoplasm? of the serosal surface of bowel (S Suster). 29/15
- Primary abdominal monophasic synovial sarcoma (CDM Fletcher). 31/11
- Undifferentiated malignant neoplasm of unknown origin of the abdomen (omentum) (BM Wenig). 33/19
- Abdominal localized malignant mesothelioma of the cecum (TV Colby). 34/6
- Extrapancreatic solid-cystic tumor (M Fukunaga). 34/10
- Peritoneum – Decidualizes endometriosis with myxoid change. (JKC Chan). 39/2
- Solitary fibrous tumor (IJ Bleiweiss). 40/5
- Malignant mixed Mullerian tumor with heterologous (chondrosarcomatous) differentiation of the peritoneum (AP Dei Tos). 41/7
- Malignant mesothelioma (epithelioid) presenting as an abdominal wall soft tissue mass (DV Spagnolo). 44/17
- Inflammatory leiomyosarcoma in HIV positive male of the pelvis (C Fisher). 51/8
- Presacral (retrorectal) dermoid cyst with Paget's disease in a patient with possible Currarino syndrome (C Fisher). 53/10
- Epithelioid malignant mesothelioma, low nuclear grade, with prominent papillary pattern of peritoneum (T Krausz). 52/10
- Deciduoid malignant mesothelioma (CDM Fletcher). 53/11
- Sclerosing extramedullary hematopoietic tumor (SEMHT) associated with chronic idiopathic myelofibrosis - intraabdominal (CE Bacchi). (55/2)
- Leiomyomatosis peritonealis disseminata (M Bisceglia). 56/5
- Idiopathic sclerosing encapsulating peritonitis - abdominal cocoon (J Forteza Vila). 57/11
- Myelosarcoma in association with myelofibrosis that shows a macroscopic appearance mimicking "peritoneal carcinomatosis" (J Forteza Vila). (64/9)
- Biphasic malignant mesothelioma with peculiar, probably therapy-induced, hyalinizing micronodules (T Krausz) (64/11)
- Pleomorphic liposarcoma, epithelioid variant (P Wakely, Jr) (64/18).
- EBV-associated smooth muscle neoplasm (EBVSMM) of the mesentery in the setting of congenital immunodeficiency (common variable immunodeficiency) (D. Spagnolo). (66/15)

## SKIN & SUBCUTIS

- Gouty tophus of the skin (MA Hurt). 1/7
- Cutaneous myofibroma of the foot (N Cartagena, Jr). 2/2
- Papillary eccrine adenoma of the skin (TT Holland). 2/4
- Benign lymphangioendothelioma of the skin (MA Hurt). 2/12
- Acantholytic squamous cell carcinoma, pigmented, of the skin of nose (S Ramon y Cajal). 2/13
- Cutaneous sporotrichosis (TT Holland). 3/5
- Fibrous histiocytoma of the skin (giant dermatofibroma) (MA Hurt). 3/6
- Xanthogranuloma of the skin (J Lamovec). 3/7
- Metaplastic synovial cyst of the skin (MA Hurt). 5/7
- Metastatic adenocarcinoma of the umbilicus (MA Hurt). 6/8
- Plexiform fibrohistiocytic tumor of the abdominal skin (S Suster). 8/3
- Metastatic hidroadenocarcinoma (N Cartagena). 9/3
- Cutaneous lymphadenoma (JKC Chan). 9/4
- Subcutaneous nodule on the arm composed of small round cells with round nuclei in a myxoid stroma – absent mitotic activity *no diagnosis* (S Suster). 9/17
- Malignant melanoma (interpreted as epithelioid angiosarcoma) (H Dominguez-Malagon). 10/6
- Granulomatous slack skin (N Cartagena). 12/5
- Scleroderma with atrophy of subcutaneous adipose tissue (T Krausz). 12/11
- Malignant glomus tumor (S Suster). 14/11
- Giant cutaneous trichilemmal horn (M Bisceglia). 17/2
- Subcutaneous phycomycosis (TV Colby). 21/3
- High grade neuroendocrine neoplasm vs metastatic amelanotic malignant melanoma in inguinal ?lymph node with neuroendocrine features (J Forteza-Vila). 22/7
- Hyaline-cell rich chondroid syringoma (D Spagnolo). 22/18
- Verruga peruana (S Suster). 22/Quiz case1
- "Deep" pseudorheumatoid nodule (granuloma annulare) (T Krausz). 25/10
- CDS gr. I, metastatic to the skin of the nose (M Bisceglia). 26/Quiz-case 1
- Xanthoma of the skin (N Weidner). 26/Quiz case 2
- Prototheca zopfii infection of the skin (JKC Chan). 28/4
- Onchocerca volvulus infection of the skin (G Falconieri). 28/8
- Inguinal lymph node metastasis from aggressive papillary adenocarcinoma of sweat gland origin (M Miettinen). 28/15
- Solitary superficial angiomyxoma with epithelial components, subcutis, and scalp (PW Allen). 29/1.
- Necrotizing fasciitis due to group-A streptococcus (JKC Chan). 30/2
- Hyperplastic transplanted parathyroid in the forearm (M Bisceglia). 31/Quiz case-1
- Merkel cell carcinoma (J Forteza-Vila). 33/12
- Membranous fat necrosis (S Suster). 34/Quiz case-1
- Chester-Erdheim disease evolution in Langerhan's cell histiocytosis of the skin (M Bisceglia). 35 / Follow up case to Seminar # 28/case-3 (M Bisceglia).
- Rosai-Dorfman disease of skin (extranodal: skin) (LM Weiss). 35/18
- Well-differentiated cutaneous angiosarcoma mimicking clinical rosacea (T Mentzel). 36/13
- Cutaneous and visceral Kaposi's sarcoma with cardiac tamponade (J Forteza Vila). 37/9
- Granulomatous slack skin (CE Bacchi). 38/1
- Cutaneous CD8+/TIA+ T-cell lymphoma (T Mentzel). 38/15

- Extraspinous myxopapillary ependymoma (AL Folpe). 40/
- Cellular neurothekeoma of the skin (H Dominguez-Malagon). 41/8
- Dermal hamartoma with follicular and (?) eccrine differentiation (S Suster). 41/19
- Histiocytoid variant of eccrine sweat gland carcinoma of the eyelid and orbit (BM Wenig). 41/22
- Cutaneous adult myofibroma (S Suster). 41/Quiz case-2.
- Merkel cell carcinoma of the scalp presenting as simultaneous metastatic lesion in the gums of the upper and lower jaws (D Ben-Dor). 42/2
- Necrobiotic xanthogranuloma –skin-subcutis (I Damjanov). 43/5
- Kaposi's sarcoma of the scrotum vs angiosarcoma in a HIV+ patient (T Krausz). 44/11
- Bone metastases from cutaneous basal cell carcinoma (M Bisceglia). 44/3
- Metastatic Merkel cell carcinoma with sarcomatoid component and glandular differentiation (TV Colby). 44/5
- Metastasizing cellular dermatofibroma of the skin (CE Bacchi). 45/2
- Low-grade trichoblastic carcinosarcoma of the skin (M Michal). 45/12
- Recurrent melanoma associated with (focal) osteoclast-like multinucleated giant cell reaction (G Falconieri). 46/7
- Osteogenic melanoma of the foot (M Fukunaga). 46/9
- Retiform hemangioendothelioma (Dabska), skin of left heel (PW Allen). 47/1
- Progressive nodular histiocytoma (T Mentzel). 48/12
- Oncocytic glomus tumour (CDM Fletcher). 49/9
- Round-cell variant of low-grade perineurial sarcoma? (M Michal). 49/15
- High grade undifferentiated adnexal carcinoma of the skin (D Ben Dor). 50/1
- Malignant basomelanocytic tumor of the skin (G Elmberger). 50/8
- Congenital neurocristic cutaneous hamartoma of the scalp (T Krausz). 50/12
- Polymorphous sweat gland carcinoma of the skin (T Mentzel). 50/13
- Indeterminate cell tumor / sarcoma; indeterminate cell histiocytosis; dendritic cell sarcoma, not otherwise specified – skin (D. Spagnolo). 50/18
- Apocrine gland cyst with hemosiderotic dermatofibroma-like stroma of the skin and subcutis of the calf (PW Allen). 51/1
- Lupus panniculitis (Lupus erythematosus profundus) (T Mentzel). 52/11
- Clear cell atypical fibroxanthoma of skin (O Dietze). 53/7
- Congenital melanocytic tumor of the face, scalp and orbit. (O Ben-Itzhak). 54/3
- Apocrine carcinoma of the skin with sebaceous (sebaceous-like) and mucinous differentiation of the chest (J Lamovec). 55/14
- Adamantinoma, squamous pattern, left tibia (PE Wakely, Jr). 55/21
- Mucinous carcinoma of the skin (F Fedeli). 58/11
- Sclerotic (fibroma-like) lipoma, dorsum of right hand (PW Allen). 59/1
- Pathological examination confirmed the diagnosis of recurrent, giant keloid of the sacral region, which was still focally present at the lateral excision margins (M Bisceglia). 59/4
- Recurring malignant melanoma with osteogenic metaplasia (I Damjanov). 59/8
- Subcutaneous metastasis from meningeal hemangiopericytoma (V Eusebi). 59/11
- Fibrous umbilical polyp (M Miettinen). 59/19
- Cutaneous leishmaniasis with pseudoepitheliomatous hyperplasia (O Ben-Itzhak). 60/3
- Richly vascularised, benign mesenchymal hemangioblastoma-like tumor of soft tissue (M. Bisceglia). 60/5
- Cutaneous myeloid sarcoma (“aleukemic” myeloid leukemia cutis), consistent with acute myelomonocytic leukemia (AMML) (DV Spagnolo). 60/21

- Superficial (dermal/subcutaneous) lymphangiomatosis (with visceral – pleural/peritoneal involvement with chylothorax and chylous ascites) (J Lamovc). 60/16
- Granulomatous mycosis fungoides of the skin (T Mentzel). 62/14
- Tumour-like erythema elevatum et diutinum. (T. Mentzel) 64/13
- Intravascular large B-cell lymphoma of the skin. (O. Dietz) 65/9
- Compound melanocytic nevus with granular cell changes of the skin. (G. Falconieri) 11/65
- Merkel cell carcinoma of the skin showing heterologous rhabdomyoblastic differentiation was made. (A. Folpe) 14/65
- Anaplastic large cell lymphoma of the skin, ALK positive. (J. Strauchen) 65/21
- Epithelioid angiosarcoma. (TV Colby) 65/Quiz case 1
- Massive localised lymphedema in morbid obesity as a slowly growing, pendulous, large subcutaneous mass of the right groin. (PA Allen) 66/1

## **SOFT TISSUE (INCLUDING RETROPERITONEUM)**

- Retroperitoneal malignant "triton" tumor (rhabdomyosarcoma plus malignant schwannoma) (M Huszar). 1/4
- Mesenchymal chondrosarcoma of soft tissue vs extraosseous osteosarcoma (J Lamovec). 2/6
- Soft tissue-large cell lymphoma with unusual myxoid stroma (JKC Chan). 2/8
- Myositis ossificans of the thigh (N Cartagena). 3/2
- Epithelioid angiosarcoma of deep soft tissue (CDM Fletcher). 4/5
- Chordoma-like primary soft tissue sarcoma (parachordoma) (M Miettinen). 4/9
- Variant of fibroma of tendon sheath with disturbing pleomorphism of the finger (J Lamovec). 5/8
- Rhabdomyosarcoma with mixed embryonal and aveolar features of the soft tissue (JZ Sickel). 5/14
- Retroperitoneal intra-abdominal desmoplastic small round cell tumor (LM Weiss). 5/16
- Epithelioid sarcoma of soft tissue (J Lamovec). 6/9
- Ossifying fibromyxoid tumor, malignant of the soft tissue –arm (M Miettinen). 7/11
- Subcutaneous myxopapillary ependymoma of the sacrococcygeal region (G Schibi-Brilliant). 7/15
- Infiltrating glomus tumor of soft tissue (CDM Fletcher). 8/6
- Retroperitoneal metastatic embryonal carcinoma with sarcomatous transformation (S Suster). 8/17
- Low grade myxofibrosarcoma (CDM Fletcher). 9/7
- Dedifferentiated liposarcoma (A Sara). 9/14
- ? Epithelioid leiomyosarcoma (LM Weiss). 9/18
- ? Adult neuroblastoma, differentiating, primary retroperitoneal, with metastases to omentum & ovaries. Gangioneuromatous differentiation in the metastasis to the retroperitoneal lymph node (J Lamovec). 10/10
- Sarcoma, NOS (S Suster). 10/18
- Myofibroblastic sarcoma (?) (H Dominguez-Malagon). 11/4
- Low-grade Dabskoid angiosarcoma (CDM Fletcher). 11/6
- ? Unusual variant of non-small desmoplastic small round cell tumor (J Lamovec). 11/9
- Desmoplastic fibroma (S Ramon y Cajal). 11/13
- Inflammatory fibrosarcoma (SJ Melnick). 11/15
- Extraskeletal myxoid chondrosarcoma (JZ Sickel). 11/16
- Iuxta-articular myxoma (PW Allen). 12/1
- "Myofibroblastoma with fatty component" (CDM Fletcher). 12/10
- High-grade angiosarcoma of deep tissue (M Miettinen). 12/13
- Malignant mesenchymoma (A Sara). 12/17
- Hectopic hamartomatous thymoma (PW Allen). 13/1
- Undifferentiated malignant neoplasm (sarcoma, NOS?) (CJ Goldenberg). 13/6
- Malignant mesenchymoma (PP de Saint Maur). 14/9
- Neuroepithelioma vs malignant paraganglioma (CJ Goldenberg). 15/8
- Mesenchymal chondrosarcoma (S Ramon y Cajal). 15/12
- Giant cell tumor of soft tissues (CDM Fletcher). 16/4
- Malignant mesenchymoma (PP de Saint Maur). 16/9
- Nuchal fibroma (PW Allen). 17/1
- Epithelioid angiosarcoma with alveolar pattern (H Dominguez-Malagon). 17/9
- Malignant spindle cell neoplasm (CJ Goldenberg). 17/12
- Ectopic hamartomatous thymoma with carcinoma (M Michal). 17/15
- Alveolar rhabdomyosarcoma (J Forteza-Vila). 18/6

- Perineal nodular induration of cyclist (atypical decubital fibroplasia and elastofibroma) (PP de Saint Maur). 18/13
- PNET vs metastatic neuroblastoma (D Spagnolo). 18/15
- Atypical decubital fibroplasia (PW Allen). 19/1
- Ossifying fibromyxoid tumor of soft parts (IJ Bleiweiss). 19/2
- Myospherulosis (JKC Chan).19/3
- Leiomyosarcoma with areas of rhabdomyoblastic differentiation (V Eusebi). 19/7
- Parachordoma (C Fisher). 19/8
- Malignant ectomesenchimoma of soft tissues (CE Bacchi). 20/1
- (Giant) plexiform xanthomatous tumor (M Michal). 20/8
- Liposarcoma (? surgically induced) (PP de Saint Maur). 20/12
- Low-grade fibromyxoid sarcoma (PW Allen). 21/1
- Ossyfing fibromyxoid tumor with stromal cysts (C Fisher). 21/9
- PNET vs rhabdoid tumor of the retroperitoneum (J Forteza-Vila). 21/10
- Amyloid tumor of the iliacus muscle (CJ Manivel). 21/12
- Malignant, undifferentiated large cell neoplasm, NOS (BM Wenig). 21/16
- Pleomorphic hyalinizing angiectatic tumor (CDM Fletcher). 22/6
- Retroperitoneal myolipoma (M Michal). 22/12
- Myxoid liposarcoma with prominent lymphangioma-like cystic degeneration (S Suster). 22/19
- Chondroid lipoma (N Weidner). 22/20
- Inflammatory leiomyosarcoma (AP Dei Tos). 23/6
- (?Burnt out primary in the testis with) metastases (?yolk sac tumor plus teratoma with a neuroepithelioma component) in the retroperitoneum and metastatic chondrosarcoma to the heart (S Suster). 23/14.
- Desmoplastic fibroblastoma (PP de Saint Maur). 24/12
- ? Melanotic epithelioid schwannoma, ?malignant (S Suster). 24/15
- Quiz case (3). Myofibrosarcoma low grade of bone with rhabdoid inclusions (AM Gown). 24
- Periosteal lipoma (PW Allen). 25/1
- Ossifying fibromyxoid tumor (G Falconieri). 26/5
- Unclassified sarcoma, with intravenous growth pattern (M Miettinen). 26/11
- Low-grade vascular proliferation with features of intraosseous hemangioma/epithelioid hemangioendothelioma (CA Moran). 26/12
- Desmoplastic fibroblastoma or collagenous fibroma (DV Spagnolo). 26/15
- Unclassified fibromatous tumor, probably benign: probably a myxoid variant of desmoplastic fibroma (DV Spagnolo). 26/16
- Hyaline fibromatosis (PW Allen). 27/1
- Lymphangiomatosis (C Fisher). 27/9
- Sclerosing epithelioid fibrosarcoma vs malignant solitary fibrous tumor (J Lamovec). 27/11
- Clear cell epithelioid smooth muscle tumor of low-grade malignant potential (S Suster). 27/16
- Recurrent superficial angiomyxoma vs lobular nerve sheath myxoma (J Goldstein). 28/11
- Plexiform fibrohistiocytic tumor (AM Gown). 28/12
- Hyalinizing spindle cell tumor with giant rosettes (HSTGR) (M Michal).28/13
- Pleomorphic hyalinizing angiectatic tumor of soft parts (DV Spagnolo). 28/19
- Parachordoma (I Damjanov). 29/5
- Desmoplastic fibroblastoma (PW Allen). 31/1
- Dedifferentiated liposarcoma with neural-like whorling pattern (AP Dei Tos). 31/7
- ? Myoepithelioma of soft tissues (S Suster). 31/15
- Low grade epithelioid MPNST versus high-grade extraskeletal myxoid chondrosarcoma

- (O Dietze). 32/6
- ? Low-grade fibrohistiocytic tumor (S Suster). 32/16
- Quiz case (1). Atypical lipomatous tumor with spindle cell features vs variant of myxofibrosarcoma, vs other possibilities (O Dietze). 32
- Infiltrating (and recurring) glomus tumor of the deep soft tissues misdiagnosed as synovial sarcoma (PW Allen). 33/1
- Massive localized lymphoedema in morbid obesity (CDM Fletcher). 33/10
- Clear cell myomelanocytic tumor of the falciform ligament (AL Folpe). 33/11
- Epithelioid sarcoma of proximal type (J Lamovec). 33/13.
- ? Myxoid and spindle cell sarcoma, low-grade, consistent with extraskelatal myxoid chondrosarcoma (S Suster). 33/17
- Epithelioid variant of pleomorphic liposarcoma, arising as one component of a dedifferentiated liposarcoma (AL Folpe). 34/9
- Giant cell fibroblastoma of childhood or proliferative fasciitis and myositis of childhood versus pleomorphic myogenic sarcoma (J Goldstein). 34/11
- ? Variant of myxoid chondrosarcoma of soft tissue (T Krausz). 34/13
- Lumbar nuchal-type fibroma in an adolescent boy with probable Gardner's syndrome (PP de Saint-Maur). 34/18
- Low-grade vs benign spindle cell "true" histiocytic proliferation? "Fibrous histiocytoma" of soft tissue? Missed-the-boat-oma? (S Suster) 34/20
- Hemosiderotic fibrohistiocytic lipomatous lesion of the foot – ankle (PW Allen). 35/1
- Metastasizing granular cell tumor (V Eusebi). 35/8
- Hemosiderotic fibrohistiocytic lipomatous tumor (C Fisher). 35/9
- Angiomatoid malignant fibrous histiocytoma (J Goldblum). 35/12
- Plexiform fibrohistiocytic tumor with regional lymph node metastases (JA Strauchen). 35/16
- Hyalinizing mesenchymal neoplasms of undetermined malignant potential (S Suster). 35/17
- Low-grade spindle cell sarcoma, NOS (S Suster). 35/20
- Phosphaturic mesenchymal tumor, mixed connective tissue variant causing oncogenic osteomalacia (AL Folpe). 36/9
- Undiagnosed soft tissue tumor, presumably benign, with features of desmoplastic fibroblastoma, solitary fibrous tumor, and pleomorphic hyalinizing angioblastic tumor (PW Allen). 37/1
- Spindle cell hemangioma. (H Dominguez-Malagon). 37/5
- Aneurysmal bone cyst of soft tissue (CDM Fletcher). 37/8
- Atypical, solitary fibrous tumor (J Goldstein). 37/10
- Retroperitoneal hemangioblastoma extending from spinal canal. (J Lamovec). 37/11
- Epithelioid angiosarcoma. (S Ramon y Cajal). 37/15
- Spindle cell sarcoma, NOS (S Suster). 37/18
- Necrotizing granulomatous inflammation of soft tissue of unknown etiology (BM Wenig). 37/20
- Myoepithelioma of soft tissue, probably of low-grade malignancy (AL Folpe). 38/11
- Epithelioid sarcoma, "proximal" type (AM Gown). 38/13
- Retroperitoneal uterine-type leiomyoma (M Miettinen). 38/16
- Low-grade spindle cell myofibroblastic proliferation (plus Follow-up: ...) (S Suster). 38/20
- Inflammatory leiomyosarcoma of the abdomen (I Damjanov). 39/6
- Lipoleiomyosarcoma (well-differentiated liposarcoma with leiomyomatous differentiation) (J Goldstein). 39/13
- Malignant solitary fibrous tumor (or inflammatory fibroblastic sarcoma) (PE Wakeley, Jr). 39/20

- Atypical fibroproliferative disorder akin low-grade myofibroblastic tumor (G Falconieri). 40/8
- Lipomatous hemangiopericytoma vs peculiar variant of atypical lipomatous tumor (T Krausz). 40/12
- Spindle cell rhabdomyosarcoma in an adult (T Mentzel). 40/13
- Spindle cell / composite hemangioendothelioma (PW Allen). 41/1
- Perivascular epithelioid cell tumor (PEComa) resembling clear cell myomelanocytic tumor (C Fisher). 41/10
- Idiopathic retroperitoneal fibrosis (Ormond's disease) (K Cooper). 41/5
- Lipoblastoma intramuscular (J Lamovec). 41/15
- Myolipoma (T Krausz). 42/11
- Undiagnosed and unclassified high-grade malignant neoplasm with polyphenotypism (DV Spagnolo). 42/17
- ? Lipofibromatosis, Lipoblastoma, retroperitoneum? (PW Allen). 43/1
- Inflammatory malignant fibrous histiocytoma of the pelvis (M Miettinen). 43/13
- Pleomorphic high-grade sarcoma of the groin (S Suster). 43/15
- Mesenchymal chondrosarcoma of the L5 vertebral body (PE Wakeley, Jr). 43/16
- Small spindle and epithelioid cell sarcoma, NOS (G Falconieri). 44/7
- "Early" pleomorphic hyalinizing angiectatic tumor of soft parts (AL Folpe). 44/8
- Lipofibromatosis (finger) (E Montgomery). 44/13
- Extraskeletal Ewing's sarcoma /PNET (CDM Fletcher). 45/9
- Aneurysmal type of solitary fibrous tumor / pericytoma-like fibroblastoma (J Lamovec). 45/11
- Primary borderline mucinous tumor, right infrarenal retroperitoneum (PW Allen). 45/1
- Retroperitoneal angiomyolipoma (T Krausz). (46/11)
- Intravascular myopericytoma of soft tissue (T Mentzel). 46/12
- Round cell liposarcoma with cord-like growth pattern (M Miettinen). 47/12
- Phosphaturic mesenchymal tumor (K Cooper). 49/5
- Acral myxoinflammatory fibroblastic sarcoma (inflammatory myxohyaline tumor) (I Damjanov). 49/12
- Unclassified malignant epithelioid and spindle cell tumor with clear cell features and bizarre giant cells and prominent inflammatory and foam cell component (J Lamovec). 49/13
- Lipoblastic nerve sheath tumor with signet-ring lipoblastic cells (S Suster). 49/18
- Reactive fibrovascular proliferation, possibly engrafted on a vascular malformation of soft tissue of the neck (CDM Fletcher). 51/9
- Amyloid tumor of soft tissue with metaplastic bone (M Miettinen). 51/13
- Alveolar soft part sarcoma (IJ Bleiweiss). 53/3
- Metastatic low-grade endometrial stromal sarcoma to the retroperitoneum (K Cooper). 53/5
- Liposarcoma of the thigh, mixed type. (T Mentzel). 54/11
- Ectopic ependymoma of the groin (E Montgomery). 54/12
- Injection site high-grade angiosarcoma, subcutis, left buttock region, associated with hemosiderin and large calcified masses of old fat necrosis, presumably secondary to subcutaneous iron injections 20 years previously. (PW Allen). 55/1
- Rosai-Dorfman disease of soft tissue – thigh. (I Damjanov). 55/6
- Angiosarcoma arising in AV fistula previously used for dialysis in renal transplant recipient. (C Fisher). 55/10
- Extranodal Rosai-Dorfman disease, left tibia. (PE Wakely, Jr). (55/22)
- Reticular perineurioma. (T Krausz). 56/10
- Hybrid perineurioma and (ancient) schwannoma (T Mentzel). 56/11
- Inflammatory myxo-hyaline tumor, dermis and subcutis, left shoulder and back (P Allen). 57/1
- Epithelioid sarcoma, proximal type (K Cooper). 57/4

- Hibernoma, spindle cell variant (CDM Fletcher). 57/9
- Dedifferentiated liposarcoma (with one small focus closely resembling spindle cell lipoma) (A Folpe). 57/10
- Pleomorphic rhabdomyosarcoma (A Gown). 57/12
- Sclerosing perineurioma (M Miettinen). 57/15
- Adult type rhabdomyoma (PE Wakely, Jr). 57/18
- Unusual spindle cell lesion with extensively hyalinized stroma, NOS (E Zambrano). 57/22
- Plexiform fibrohistiocytic tumor/cellular neurothekeoma (H Dominguez-Malagon). 57/23
- Dedifferentiated solitary fibrous tumor? Dedifferentiated peripheral nerve sheath tumor (perineurioma)? (H Dominguez-Malagon). 57/ 24
- ?? Epithelioid vascular neoplasm? Primitive cartilaginous tumor ??Extraskeletal myxoid chondrosarcoma (S Suster). 57/ 25
- Proximal type epithelioid sarcoma of the leg (V Adsay). (58/1) (as a Quiz case)
- Phosphaturic mesenchymal tumor, mixed connective tissue type (M Bisceglia). 58/5
- Reticular schwannoma (T Mentzel). 58/14
- Fibrous hamartoma of infancy (E Montgomery) (58/15)
- Soft tissue chondroma vs chondroid tumor of unknown malignant potential (S Ramon y Cajal). (58/16)
- Myospherulosis (JZ Sickel). 58/Quiz Case-1
- Low grade spindle cell sarcoma” consistent with either a low-grade myxofibrosarcoma or a low-grade malignant solitary fibrous tumor (S Suster). 58/Quiz case 2
- Retroperitoneal perirenal sclerosing PEComa (CDM Fletcher). 59/13
- Recurring myxoid fibroblastic neoplasm of the leg (T Mentzel). 60/16
- Extra-articular diffuse-type tenosynovial giant cell tumour (extra-articular PVNS) of the thigh (DV Spagnolo). (62/18)
- Pseudo-myogenic (epithelioid sarcoma-like) haemangioendothelioma vastus medialis muscle (mimicking ectopic myxoinflammatory hyaline tumour with minimal myxoid areas, proliferative myositis, ...). (P Allen). 63/2
- Tufted angioma arising in/on a recurrent congenital lymphangioma (M Bisceglia). 63/3
- Monophasic synovial sarcoma, glandular-type, arising within the median nerve of the right forearm (V. Eusebi). (63/8)
- Dedifferentiated solitary fibrous tumor with divergent osteosarcomatous and rhabdomyosarcomatous differentiation (C Fisher). (63/9)
- Subcutaneous adult myofibroma of the thigh (M Miettinen). 63/14
- Pleomorphic rhabdomyosarcoma of soft tissue in an adult patient (S. Suster). 63/Quiz case-2
- Reactive atypical fibrovascular proliferation (reactive angioendotheliomatosis?). 64/10
- Hybrid hemosiderotic fibrolipomatous tumor/myxoinflammatory fibroblastic sarcoma. (J. Lamovec). 65/16
- Rhabdomyosarcoma (pleomorphic), high-grade (M. Miettinen). 65/18
- EWING-PNET retroperitoneal sarcoma (J. Forteza Vila). 66/7
- Retroperitoneal (??) “low-grade epithelioid neoplasm of undetermined histogenesis” (S. Suster). 66/18

## **PERIPHERAL NERVE**

- Epithelioid malignant schwannoma (S Suster). 12/20
- Perineurioma (N Weidner). 12/21
- Neuroblastoma-like neurilemmoma (A Nascimento). 17/16
- Post-traumatic neuroma (H Molina-Kirsch). 18/10
- Epithelioid malignant schwannoma (M Miettinen). 20/9
- Cellular schwannoma with necrotizing granulomas (A Nascimento). 22/15
- Malignant glandular Triton tumor with neuroendocrine differentiation (C Fisher). 25/8
- Epithelioid psammomatous melanotic schwannoma (GJ Berry). 32/2
- Peripheral nerve sheath tumor with neuromelanin (M Michal). 32/11
- Neurofibroma with epithelioid features and granular cell differentiation (O Dietze). 34/7
- Benign schwannoma with cellular (neuroblast-like component) (V Eusebi). 37/6
- Dendritic neurofibroma with pseudorosettes (M Michal). 41/16
- S-100 negative (then positive) schwannoma (S Suster). 41/18
- Reticular perineurioma of soft tissues (T Mentzel). 42/12
- Epithelioid variant of malignant peripheral nerve sheath tumor (vs melanoma with spindle cells, myxoid and balloon cell areas) (S Suster). 44/Quiz case-4
- Myxoid schwannoma (K Cooper). 45/3
- Spindle cell melanoma vs. epithelioid malignant peripheral nerve sheath tumor (AM Gown). 46/10

## BONE & ARTICULAR SYSTEM

- Clear cell chondrosarcoma of femoral head (J Lamovec). 4/7
- Synovial sarcoma monophasic (S Suster). 4/14
- Periosteal chondrosarcoma, with myxoid features, grade 2, of femur (M Miettinen). 5/10
- Synovial sarcoma of the thigh (JZ Sickel). 6/16
- Chondroblastoma, probably recurrent (IJ Bleiweiss). 7/2
- Metastatic sarcomatoid carcinoma of right humerus, of probable renal origin (J Lamovec). 8/9
- Dedifferentiated chordoma (V Eusebi). 10/7
- TGC of tendon sheath, cellular variant (M Miettinen). 10/12
- Epithelioid monophasic synovialsarcoma (N Weidner). 10/19
- Synovial chondromatosis of temporo-mandibular joint (IJ Bleiweiss). 11/2
- Central chondrosarcoma, gr. III (H Molina-Kirsch). 16/8
- Secondary chondrosarcoma of digit (M Bisceglia). 17/3
- Extra-articular pigmented villo-nodular synovitis (?) (DV Spagnolo). 20/14
- ? Monophasic synovial sarcoma of the retroperitoneum (S Suster). 20/15
- Massive chondroid differentiation in fibrous dysplasia of bone (fibrocartilaginous dysplasia) vs fibrocartilaginous mesenchymoma of bone (N Weidner). 20/16
- Dedifferentiated chordoma (AP Dei Tos). 21/5
- Monophasic synovial-sarcoma (V Eusebi). 21/7
- Chondroblastoma of the acetabulum (S Ramon y Cajal). 23/12
- Cartilaginous hamartoma of chest wall (CDM Fletcher). 24/6
- Metastatic malignant mesothelioma to maxillary bone (V Eusebi). 29/8
- Synovial metaplasia in lipoma (M Michal). 30/8
- ? Monophasic synovial sarcoma with metaplastic cartilage (S Suster). 32/15
- Synovial sarcoma with prominent glandular component (C Fisher). 33/9
- Fibroosseous pseudotumor of the digits (LMWeiss). 33/18
- Lipofibromatous hamartoma of the median nerve and lipofibromatous hamartoma of the medial plantar nerve with macrodactyly (M Bisceglia). 34/4
- Malignant tumor, NOS, involving the bone (metastasis? extraskeletal myxoid chondrosarcoma?) (CE Bacchi). 36/1
- Tumefactive soft tissue extension from longstanding Paget's disease simulating sarcoma (Paget's pseudosarcoma) (DV Spagnolo). 36/16
- Synovial chondromatosis (PP de Saint Maur). 38/18
- Myxoid biphasic synovial sarcoma with SYT-SSX2 fusion transcripts (C Fisher). 37/7
- Chondroblastoma of the sphenoid (V Eusebi). 39/9
- Hyperplastic callus in soft tissue at the site of the fractured surgically fixed femur associated with osteogenesis imperfecta - type IV?) (J Lamovec). 39/14
- Ochronotic arthropathy (M Fukunaga). 44/9
- ? Metastatic osteosarcoma (V Eusebi). 45/7
- Rosai-Dorfman's disease involving the patella (DV Spagnolo). 46/16
- Synovial sarcoma with squamous differentiation (C Fisher). 47/7
- Hydatid cyst (echinococcosis) of bone (O Ben-Itzhak). 49/3
- Perivascular epithelioid cell tumor (PEComa), malignant, probably metastatic (to bone) of unknown primary site (J Lamovec) (51/11)
- Metastatic glioblastoma to bone (J Lamovec). 53/15
- Extraskeletal osteosarcoma (M Miettinen). 53/18
- Primary epithelioid sarcoma of bone. (AL Folpe). 55/12

- Subchondral acute inflammation in severe arthritis (AL Folpe). 59/14
- Osteogenic sarcoma of the left mandible, osteoblastic type, presenting as an extra-osseous myxoid tumor, in a patient with a history of retinoblastoma and radiation therapy in early childhood (D Ben-Dor). 60/2
- Low-grade myofibroblastic neoplasm of the maxillary bone (E Zambrano). 60/22
- Histiocytic Sarcoma / Dendritic cell tumor involving thoracic vertebrae and perivertebral soft tissue (J Forteza Vila). 60/15
- Dedifferentiated chondrosarcoma with giant cell tumor-like areas of the humerus (LM Weiss). 61/21
- Polycystic lipomembranous osteodysplasia with sclerosing leukoencephalopathy (PLOSL) (A. Folpe). 63/11
- Clear cell chondrosarcoma (S Ramon y Cajal). 64/15
