

AMR SEMINAR #45

January 24, 2005

Dear Friends and Members;

Enclosed please find the new set of glass slides for AMR Seminar #45. The comments to the previous cases and the case histories for this submission are on the AMR web page at <http://pathology.osu.edu/amr>.

The deadline for submission of cases for the next seminar is the **end of April 2005**.

The following members are due for submission of cases for the next seminar:

*David Ben-Dor
Ira Bleiweiss
Otto Dietze
Masaharu Fukunaga
Thomas Mentzel
Cesar Moran
Dominic Spagnolo*

*Gerald Berry
Santiago Ramon y Cajal
Giovanni Falconieri
Allen Gown
Markku Miettinen
Joshua Sickel
Bruce Wenig*

*Michele Bisceglia
Thomas Colby
Andrew Folpe
Thomas Krausz
Elizabeth Montgomery
Elvio Silva*

I would like once again to issue a request of all the members. If at all possible we would ask you to use glass coverslips for the slides you send for AMR cases instead of plastic coverslips. This will help insure these precious slides are protected for years. I have received several complaints from members of the club about plastic coverslips drying out and falling off the slides with the tissue attached to them.

I would like to thank all the members of the AMR Club who participated in the AMR session at the recent IAP in Brisbane for their contribution to the success of the session. This is the first time our group is represented at an international event of this magnitude and judging from the comments of attendees, our session was very well received. We are particularly indebted to Dominic Spagnolo and Phil Allen who organized and directed the session. We thank you for the wonderful effort and an outstanding job.

Finally, I would like to introduce our newest member to the club. Dr. Elvio Silva at MD Anderson Cancer Center in Houston, Texas. Not only is he joining the slide club, but he will also participate in the symposium in the Czech Republic in June. Please join me in welcoming Dr. Silva to the club.

I hope you will all enjoy the enclosed cases and I look forward to hearing from you soon.

Sincerely,

Saul Suster, M.D.
