

# the arkadi m. rywin international pathology slide seminar

October, 2012

Dear AMR Members:

As many of you know, I recently accepted the position as Dr. Saul Suster's Administrative Assistant and Coordinator of the AMR Slide Seminar. Recently, I have completed the task of assembling slide submissions and case histories for AMR #62, and would like to pass along a few suggestions and reminders.

As you know, each member is selected to submit a case to every-other slide seminar. If, however, you have a case that can't wait, please feel free to send it. When submitting cases:

1. Submit (50) H&E stained slides for dissemination to Club members. Please ensure the slides are stained prior to submission as we do not have the resources to provide histological services to Club members.
2. The case history should be e-mailed to [nboinski@mcw.edu](mailto:nboinski@mcw.edu). It would also be helpful to include a copy with the slide submission. Identify the case history and slide submission with your name and accession number. This will be helpful in the event the history and slides become separated.
3. Package your slides carefully and securely; the use of bubble-wrap is recommended. We have received several submissions containing broken slides which are unusable. This results in not having the proper number of slides to ensure that every member receives a complete set.
4. If you are submitting a "Quiz Case", please identify it as such in your paperwork.

In a previous session, it was agreed that it was not enough for members to simply submit slides to the Club, and that any member who failed to contribute their opinion on the cases submitted on two consecutive occasions would be automatically dropped from the Club. Please ensure you abide by this policy. When submitting your case comments, please e-mail them to myself at [nboinski@mcw.edu](mailto:nboinski@mcw.edu). If, however, you choose to relinquish your membership to the Club, simply e-mail this request and it will be honored without question.

Thank you to those who have submitted cases for Seminar #62. I hope everyone finds the cases exciting and informative.

Warm Regards,

*Nancy*
