slide seminar

Arkadi M. Rywlin

AMR

International
Pathology Slide
Seminar

December 2018

Dear Friends and Members:

Enclosed please find the new set of glass slides for AMR Seminar #73. Just a reminder that the comments to the previous cases (AMR #72) as well as the case histories and pertinent images for this submission will be on the official AMR web page at <http://www.amr-seminar.org>.

We request all members submit their comments for AMR #73 by the end of **March 2019**. The deadline for submission of cases for the next seminar (AMR #74) is the same. As a reminder, we do request fifty (50) H&E slides sent with your submission. I would also like to add as a reminder that we will not accept slides carrying **plastic coverslips**. The plastic coverslips dry out after a few years and detach carrying the tissues with it. Please make sure that all slides submitted for the club are coverslipped with **glass**. Kindly visit the AMR web page for additional submission instructions. I apologize for the delay in sending out this seminar. My assistant in charge of the seminars has relocated to another job and this delayed the finalization of the seminar.

The following members are due to submit cases for the next seminar:

Abbas Agaimy	Goran Elmberger	Alberto Marchevsky	Brian Rubin
Phil Allen	Franco Fedeli	Thomas Mentzel	Manual Sobrinho Simoes
Ira Bleiweiss	Maria Pia Foschini	Michal Michal	Paul Wakely, Jr.
Alberto Cavazza	Masaharu Fukunaga	Vania Nose	
Gerald Berry	Thomas Krausz	Delia Perez-Montiel	
Justin Bishop	Anais Malpica	Cesar Moran	

In the last few years we've had significant turnover in the Club as longstanding members have retired; likewise, we're trying to renovate the Club with new members and to provide an opportunity for younger, up-and-coming and enthusiastic surgical pathologists to join our group. If you know of any deserving candidates who would fit well with our group, please let me know. With this seminar I would like to introduce two new members to the club: Kenneth Schoolmeester from the Mayo Clinic, and Jesse MacKinney from the Cleveland Clinic; please make them welcome to the group.

I would also like to reiterate that an indispensable requirement for being part of the club is active participation in the slide exchange and other activities. We have a standing rule that any member who does not contribute cases or comments two times in a row will be automatically dropped from the club and assumed to no longer be interested in participating. Comments on all cases are not expected, but on cases which overlap with your areas of interest/expertise we do want to hear your thoughts; after all, that was the primary purpose of the Club.

I would like to wish you all a happy holiday season and a healthy and happy New Year 2019!

Sincerely yours,

Saul Suster, M.D.
