Arkadi M. Rywlin

AMR

International
Pathology Slide
Seminar

August 2021

Dear Friends and Members:

After a long COVID-hiatus, we are finally re-starting our slide exchange of the AMR Slide Seminar Club. The new set of glass slides for AMR Seminar #77 have already been shipped. Just a reminder that the comments to the previous cases (AMR #76) as well as the case histories and pertinent images for this submission will be on the official AMR web page at <http://www.amr-seminar.org>.

We request that all members submit their comments for AMR #77 by the end of **December 2021**. The deadline for submission of cases for the next seminar (AMR #78) is the same. As a reminder, we do request fifty (50) H&E slides be sent with your submission. I would also like to add as a reminder that we will not accept slides carrying **plastic coverslips**. The plastic coverslips dry out after a few years and detach carrying the tissues with it. Please make sure that all slides submitted for the club are coverslipped with **glass**. Kindly visit the AMR web page for additional submission instructions.

The following members are due to submit cases for the next seminar:

Abbas Agaimy	Manuel Sobrinho-Simões	Niels Rupp	Brandon T. Larsen
Phil Allen	Justin Avery Bishop	Dibson Dibe Gondim	Brian Rubin
Fatima Carneiro	Ira J. Bleiweiss	Göran Elmberger	Kenneth Schoolmeester
Gerald D. Berry	Alberto Cavazza	Franco Fedeli	Santiago Ramon y Cajal
Thomas Mentzel	Kumarasen Cooper	Maria Pia Foschini	Thomas Krausz
Paul Wakely	Delia Perez-Montiel	Luca Di Tommaso	

It is with much sadness that I must share with you that one of our longstanding members, Prof. Jeronimo Forteza-Vila from Spain passed away a few months ago. Prof. Forteza-Vila was one of the most respected pathologists in Spain who trained hundreds of residents and occupied critical leadership roles in his country. He will be missed. We will also miss Dr. Juan Rosai, who also passed away last year and was one of the founding members of the Club. I was also informed by Dr. Alberto Marchevsky that he will no longer be participating in the exchange of cases as he is close to retirement and will no longer have the facilities for requesting recuts for the slide exchange.

In this seminar we welcome three new members to the Club: Shira Ronen, M.D. from the Cleveland Clinic, Michael Michal, M.D. from the Plsen Department of Pathology, Charles University, Czech Republic (son of our longstanding member, Michal Michal), and David Suster, M.D., from Rutgers University School of Medicine (my son). Please continue to mail your cases and comments to the attention of my research assistant and coordinator Stephanie Bensman (Sbensman@mcw.edu). Please address all inquiries and correspondence directly to her regarding the cases circulated in the Club. I would also like to remind the Club members that they are all invited to submit exceptional cases of educational value to the "AMR Club Cases" section in the *Advances in Diagnostic Pathology*. Please contact me for details.

Saul Suster, M.D.

Saul Suster, M.D.
