We recently successfully completed our 12<sup>th</sup> International AMR Seminar Symposium held in Venice, Italy, thanks to the efforts of Tiziana Salviato, who together with her team organized a memorable event. We shall be posting pictures and memories of this trip shortly on our website. We are grateful to Tiziana for all her efforts and for a seamless and memorable experience in beautiful Italy. This 12<sup>th</sup> AMR International Seminar was dedicated to the memory of our late friend and member, Ondra Hes, whose untimely death was felt by all of us. Ondra was a beloved member of our AMR family and will always and forever be remembered as one of the most gracious, kind, and brilliant individuals in the Club.

As you are all aware, many of the original or early members of the Club are now nearing retirement and several have dropped from the Club in the past few years. In an effort to renew the Club we are continuing to enlist new members, particularly among young, up-and-coming surgical pathologists. With this seminar it is my pleasure to introduce several new members to the Club: Reza Alaghebandan, Cleveland Clinic; Ricardo Lastra, University of Chicago; Raul Perret, Institut Bergonie, France; Daniel Wong, Western Australia; Israa Lakloul, University of California; and Preetha Ramalingam, M.D. Anderson Cancer Center. We look forward to their participation and contributions to the Club.

As you all know, I have now retired from the Medical College of Wisconsin and I am working as a senior consultant at the Rutgers University Hospital in Newark, New Jersey. Please ship your materials to me to my home address: **20 Woodmont Road, Montclair, NJ 07043**. For the case descriptions and comments please use my email address: [saulmsuster@gmail.com](mailto:saulmsuster@gmail.com). For the next exchange we are going to need 40 H&E recuts from a case of your choice. Please note that we are not accepting slides with plastic coverslips!

With very best wishes and kindest regards,

*Saul Suster, M.D.*
